PO BOX 2019 GATESHEAD DC NSW 2290

5th July 2010

CHANGES TO ANSA NSW GAMEFISH TAGGING

**NEW KINGFISH MINIMUM SIZE LIMIT FOR TAGGING
REVISED TO 70cm**

ANSA NSW has been an enthusiastic and passionate supporter of the NSW DII Fisheries Gamefish Tagging Program; we have continually modified the program to dovetail with our principles and motto, 'sport, conservation and integrity'. We have also worked closely with NSW DII to evolve the ANSA NSW Tagging Species List to complement the research requirements that the program is based upon.

Our tagging species list adopts 97% of the program, with the only species being abandoned being the few that have a very minor chance of appearing in our State waters.

These changes will come into effect immediately and it is hoped that they will not effect the current 12 month competition which started on 1 July 2010.

The points for tagging a kingfish remaining unchanged.

A revised tagging list has been attached for your records.

Please ensure your members are updated.

Regards,

Stan Konstantaras
ANSA NSW Tagging Officer

ANSA NSW TAGGING LIST

Revised 1st July 2010

Note: Maximum of 200 points per species as per ANSA NSW Tagging List per angler to encourage versatility.

e.g. 20 Bonito = 200 points

2 Marlin = 200 points

Eligible species tagging list—July 1, 2010

Tagging Masters are available for each individual species at 200 points
