President's Report

This past year has been to say the least very busy and hectic and it seems like yesterday when I sat down to write last year's Presidents Report. Life was so much simpler when I first joined ANSA NSW over 25 years ago as a fresh faced teenager who fished and fished and kept on fishing. An ANSA NSW apprenticeship on the wharves saw me progress to the rocks, then to hitching rides on boat to then owning 4 boats and my fishing sphere increased from my local to other spots in NSW I read about in fishing magazines, to travelling and fishing in most of Australia to some pretty exotic International destinations. I will be honest and say this entire journey has been in the company of ANSA NSW members.

Why the ramble, well life as an ANSA NSW member was simpler then and the level of bureaucracy was smaller, less self-important and self-serving and social media happened at my local fishing club. Fast forward to 2016 and life is passing us by at a hectic pace, fishing time is limited and now there are 10 public servants pulling in 10 different directions when it comes to making decisions based on how and where we can fish. Nothing much has changed in the way we have fished; I imagine most of us had a conservation and sustainability ethos from a young age yet we are faced with insurmountable problems with climate change, pollution of our waterways, marine debris, resource allocation issues between sectors and loss of access.

I would like to think that we have really good fisheries management in NSW that deals with us as anglers and yet in 2015 / 2016 our bureaucrats thought the best way to fix climate change, pollution, marine debris and resource allocation is to lock anglers out of their traditional fishing spots because the other problems can't be fixed and subsequent governments will always blame the previous government for these. The buzz word in 2015 / 2016 was "legacy problems" to justify why the problem can't be fixed. I tend to agree, what Government wants to fix our aging sewerage system, when dumping in the bays, estuaries and offshore are cheaper than spending billions to fix it.

So back to my trip down memory lane, I have put my hand up again to step into the role as President of ANSA NSW and barring an unprecedented rush of nominees, hope that in the next 2 years we as a Committee can stem the tide of anti-fishing sentiment and try and restore some of those care free days that I had growing up when I first joined ANSA NSW.

The fight for access to the waterway and to the resource is looming large in 2016 / 2017 / 2018 and into 2019. With a government keen to appease the conservation movement and hell bent on selling every asset from Crown owned lands, wharves and roads that lead to our inland waterways and getting caught up in the net of lies that "marine parks" will save the oceans it's going to be interesting how we are dealt with as key stakeholders.

During 2015/2016 we were all fortunate to be supported by a well-oiled machine that is the ANSA NSW Committee who once again did a great job on keeping ANSA NSW going full steam ahead. Testament to this report and a stable and slowly increasing membership Team ANSA NSW rose to the task of meeting challenges on a daily basis. There has been a good response to our presence on social media, communications with the Clubs has been consistent and we are all still friends and enjoy catching up at Conventions and other events where ANSA NSW members are often seen like boat shows and tackle shops and even the humble boat ramp.

Having a well-oiled machine running the show gave me the chance to take on some additional advocacy roles in NSW, I felt comfortable that the Team would pick up my slack.

I applied and was appointed to the Ministerial Fisheries Advisory Council (MFAC) as the recreational fishing representative for NSW and was appointed as the Sydney / Central Coast regional representative on the new Recreational Fishing NSW Council (RFNSW). Whilst MFAC will focus on policy encompassing recreational fishing priorities and how to best represent anglers in NSW, RFNSW allows me to bring every state-wide fishing issue ANSA NSW members might want raised so please feel free to send me a message or get your club to contact ANSA NSW and they will be happy to pass any inquiry on.

With many ANSA NSW issues on the table and still unresolved in 2015/2016 it is hoped that more headway and a stronger and more stable presence is presented on behalf of all NSW anglers in NSW on the back of the strength that ANSA NSW and its clubs can offer.

Almost 20 years of ANSA NSW fishing fun, when facial hair was hip and Mr Garufi, our esteemed Secretary fished every weekend.

A handwritten signature in black ink that reads "A. Konstantaras".

Stan Konstantaras
President
ANSA NSW

Vice President's Report

2015/16 was another very busy year for ANSA at a National and State Branch level. Recreational fishing continues to be challenged on so many fronts it has become an almost daily event keeping up with the many issues that confront us nationally and across every State. Listed below is a snapshot of some of the many important issues where ANSA has taken a leading role in advocating for the rights of recreational fishers and the preservation of our fishery resources for the benefit of recreational fishers,

Nationally

- Commonwealth Small Pelagic Fishery and the Geelong Star – ANSA has been at the forefront of a National peak body campaign to curtail / stop the activity of large scale factory / trawler vessels in key recreational fishing locations.
- Commonwealth Marine Reserve roll out – ANSA has again been at the forefront of a National peak body campaign to ensure that recreational fishers are not unjustifiably locked out of proposed reserves especially in the Coral Sea and in Western Australia.
- Recognition of recreational fishing in the Commonwealth Fisheries Management Act and an equitable level of recreational fisher representation in the management of all Commonwealth fishery resources.
- Establishment of an adequately resourced Commonwealth Recreational Fishing Council to give recreational fishers a level of representation and advocacy that aligns with the socio economic value of recreational fishing nationally
- National programme for the eradication of carp - the restocking of inland waterways with native species and rehabilitation of these fish habitats.
- Support for a review of the operations and charter of AFMA (Australian Fisheries Management Authority).
- Recreational fisher input into resource sharing proposals for Southern Blue Fin Tuna and other Commonwealth managed species.
- Support for the establishment of a National recreational fishing and boating infrastructure fund.
- Support for the implementation of a National economic study into the value of recreational fishing.
- Input into the Productivity Commission review of fisheries and aquaculture and the relevance of recreational fishing.
- Support for enhanced investment in fisheries research and recognition of the role and value of citizen research.
- Engagement in the development and roll out of a National recreational fishing education programme.
- Continued roll out of the Angel Ring/ Fishing Safety National project
- Support for the establishment of a National “Go Fishing Day”.
- Input into the development of a new National Code of Practice for recreational fishing.
- Support for the campaign to establish net free areas in several states.
- Support for the campaign against the dredging of Abbot Point and the dumping of spoil on the Great Barrier Reef to facilitate the shipping of coal from the controversial Adani mining project
- Objections to proposals for the listing of several shark species as protected and endangered species.
- Grey Nurse Shark Management Plan – Ongoing stakeholder representation.
- 2016 Federal Election – Most of the before mentioned issues were referenced in an election platform document that was jointly prepared by members of ARFF and circulated to all contesting political parties and independent candidates prior to the 2016 Federal election calling for greater recognition of Australia's 5 million recreational fishers.

NSW.

- Hawkesbury Bioregion Marine Park. Ongoing dialogue with NSW government and stakeholders to ensure best outcomes for recreational fishers.
- NSW Commercial Fishing Review. Ongoing dialogue with NSW government and stakeholders that will support sensible rationalisation of the commercial fishing industry.
- NSW Fisheries Management Act. Ongoing dialogue with NSW government and stakeholders seeking recognition of recreational fishing in the Act.
- Lobbying for government recognition of the RFA of NSW as the official State peak body for all NSW recreational fishers.
- NSW Boat Trailer "On Street" Parking legislation. Ongoing dialogue with NSW government and Councils to ensure that boat owners are not unfairly restricted from parking boat trailers on public streets for more than 28 days and to lobby the government for the establishment of affordable off street parking facilities in local communities.
- NSW Marine Estate Management Authority – Ongoing dialogue with the Authority and other stakeholders to ensure the interests of recreational fishers are preserved and enhanced.
- NSW Regional Boating Plans. Representations for more boat ramps and jetties and upgrades of existing facilities.
- NSW Crown Land Review. Ongoing campaign for preservation of recreational fisher access.
- Public jetties and ferry wharves – ongoing campaign to ensure that recreational fishers retain access to these facilities.
- No Netting in Hawkesbury/ Shoalhaven/ Tuggerah Lakes. Ongoing campaign to have these locations declared as Recreational Fishing Havens.
- Sydney Harbour Marine Park. Ongoing campaign to have Sydney Harbour declared a Recreational Fishing Haven and fishing access rights preserved.
- Meaningful Inclusion of recreational fishing in the NSW Fisheries Management Act.
- Effective representation and voice in the eventual implementation of a resource sharing protocol for Commonwealth and State fisheries.
- Negotiating offsets for loss of fishing access or environmental damage – we hope to build upon our success in achieving a \$5million compensation package for loss of access and environmental damage to Botany Bay.
- Continued pressure on agencies such as the EPA, Sydney Water and Councils in connection with water contamination incidents and associated fish kills across the state and calls for the speedy prosecution of known offenders and imposition of appropriate penalties which can be directed into local area rehabilitation and other fishery related projects rather than into consolidated revenue.
- Lobbying against the discharge of contaminated waste water into NSW river systems as a consequence of Coal Seam Gas extraction operations at various locations.
- Lobbying for redirection of a proposed communication cable that will cross the southern extreme of the iconic "Peak" fishing grounds.
- Stakeholder engagement in a proposal to relocate existing power cables in the sea bed between Kurnell and LaPerouse.
- Consultation with the LaPerouse indigenous community and NSW Fisheries that facilitated a restricted cultural permit for the local community to beach haul for sea mullet within the Botany Bay RFH.
- Consultation with the NSW government in connection with a proposal to establish a ferry link between LaPerouse and Kurnell which will necessitate the construction of major wharf infrastructure at both locations which will be accessible to recreational fishers.
- Stakeholder engagement in a proposal to scuttle the former HMAS Sydney as a dive wreck cum artificial reef in waters east of Coogee.

- Support for the installation of mesh screens on inland waterway irrigation pumps etc to reduce the high level of mortality upon freshwater species.
- Support for the campaign to introduce Platypus friendly yabby traps.
- Grey Nurse Shark Rescue project – Project observer.

Many of these issues are extremely time consuming and will continue to be actively pursued by ANSA. Additionally ANSA remains a key driver behind other projects such as –

- ANSA Citizen Science – Mulloway Research/Tagging – ANSA Newtag Project in partnership with NSW Fisheries and managed by ANSA NSW. This successful project will now be expanded to include other species such as snapper.
- Fishing 4 Therapy – an acclaimed provider of recreational fishing activities for those afflicted by acquired brain injury
- Fishing and Water Safety – including safety education and awareness for recreational fishers, Angel Ring installations and constructive input into the debate over compulsory life jackets for rock fishers.

ANSA also continues to play an important stakeholder role on an extremely diverse range of issues via its membership of National, State and International peak bodies such as –

- ARFF – The Australian Recreational Fishing Foundation
- Recfish Australia
- RFA NSW
- IGFA

Additionally ANSA maintains a close professional working relationship with Commonwealth and State government agencies such as AFMA (Australian Fisheries Management Authority), DAFF (Department of Agriculture Fisheries and Forestry), FRDC (Fisheries Research Development Corporation), NSW Dept of Primary Industries (Fisheries), Commonwealth and NSW Departments of Environment, NSW Roads and Maritime Services (RMS), NSW EPA and many others and maintains regular dialogue with politicians of all persuasions at a Federal and State level.

ANSA also continues to have representation on bodies such as the NSW Licence Trust Expenditure Committee (RFSTEC) and the recently established Recreational Fishing NSW Advisory Council (RFNSW) which replaced the longstanding Advisory Council on Recreational Fishing (ACORF). ANSA also has representation on the Botany Bay Port Hacking User Group which is a stakeholder committee established by NSW RMS to address local boating and maritime issues.

ANSA also holds executive roles on the NSW Fish Habitat Partnership and Ozfish Unlimited which are two relatively new bodies set up to actively promote and coordinate stakeholders in major fish habitat rehabilitation projects. Positions are also held on consultancy committees such as the Port Botany Community Consultative Committee and the Orica Botany Liaison Committee which deal with major commercial impacts upon Botany Bay and groundwater contamination remediation.

Also over 2015/16 ANSA National in consultation with the ANSA Branch network completed the scheduled 4 yearly review of the ANSA Rule Book. A number of conservation driven changes were made to the rule book and the content streamlined to make the rules more reader friendly. New rule books have been distributed to all State Branches and NSW clubs.

The ANSA National flagship “Austag” tagging programme is under review following the recent decision by Infotag and Suntag Qld to end its affiliation with ANSA and the provision of unlimited access to its National and State tagging data base. Initiatives are in place for ANSA Qld to establish its own independent tagging programme and other ANSA State Branches are being encouraged to likewise review their own tagging programmes where applicable. ANSA NSW will continue to conduct its non game fish tagging activities under the “Newtag” banner with ongoing support from NSW Fisheries.

Looking forward to 2017, ANSA will be celebrating its 50th year anniversary. It is proposed to convene a celebratory conference event in Cairns late in 2017. ANSA National in collaboration with ANSA Qld and NSW Branches will co host this event in conjunction with foundation clubs such as Cairns Sport Fishing Club and St George Sport Fishing Club.

On reflection this is a remarkable level of activity by a small group of dedicated individuals who volunteer an enormous amount of their free time and who are capably assisted by those others on the ANSA NSW and National Executive who play an equally important volunteer role in keeping the day to day membership activities and administration of ANSA running smoothly and professionally. A special thank you is warranted for all involved.

A handwritten signature in black ink, appearing to read 'J Burgess', with a stylized, flowing script.

John Burgess
Executive Officer/ Director. ANSA National Ltd
Vice President. ANSA NSW

Secretary's Report

Another eventful year has past and the committees' commitment has once again been put to the test. Needless to say, the committee passed with flying colours.

Once again, ANSA was called to stand up, defend and curtail various issues to ensure that our members' rights and those of every recreational angler in NSW and throughout the country were upheld and protected. Our membership can be assured that ANSA has been well represented at both a State and Federal level.

The committee has worked hard to ensure that membership renewals were processed. This was a big challenge for our membership officer Pat Ashbury and treasurer Tony Steiner. A big thanks to both of you.

The committee ensured that all the latest updates for the ANSA NSW 12 Month Competition, ANSA Convention Circuit and Records were distributed as regularly as possible. This is a massive job. Well done to our recorders for records and competitions, Bruce Tozer and Travis Anderson. Thanks for your commitment throughout all the year.

Our project co-ordinators, Stan Konstantaras, Tony Steiner and Chris Anagnostou have performed exceptionally well with our Angelring, Fishing 4 Therapy and Newtag projects in the last year. Recognition at all levels of Government, both at a State and Federal level has been massive. More lives saved through the Angelring Project, successful and useful data gathered through our Mulloway Tagging Project and great results for our Fishing 4 Therapy Project. Well done gentlemen.

To the remaining committee and other volunteers, THANK YOU! Your commitment is very much appreciated and I look forward to working with you all once again.

Promotional Material

As you must all be aware, ANSA promotes itself through what it does and stands for, but if you are looking to promote ANSA through your clubs or at conventions or your local community do not forget that ANSA has promotional brochures available and there is always ANSA ware that can be purchased. If you need any more information on promotional gear, please get in contact with me and I will guide you through the process.

Committee Meetings

The Committee meets quarterly during the fishing calendar year with its most recent meeting being August 2016. Don't forget clubs are more than welcome to attend committee meetings as they see fit. It probably would not be a bad idea to come and see how things are run at a State level. It can be very rewarding and many hands make light work. We are always looking for new enthusiastic club members to join the committee and help run ANSA NSW.

The Email Database

The ANSA NSW email database currently hosts all ANSA NSW affiliated Clubs. Most of the Clubs on the database have minimum one contact. In total, the database hosts more than 120 points of contact, which includes Sportfishing NSW members. As in previous years, the electronic mailing system has really helped ANSA NSW operate more efficiently, economically and has aided their capability for distributing up to date information quickly. Hundreds, if not thousands of emails are distributed to all our member clubs each year. If you are not receiving electronic information from ANSA NSW please let me know and I will most definitely add you as a contact to the database. Do not forget, ANSA NSW has an email protocol and your addresses will be used for distribution of ANSA NSW information only.

Club Newsletters

It was very encouraging to see that ANSA NSW Clubs are sending out more newsletters than ever before. It was especially encouraging that information distributed by ANSA NSW featured in the newsletters. Well done to all those club volunteers that put their newsletter together. Keep up the great work!

The Website.

The ANSA NSW website is the central information hub for all ANSA NSW members. It is a vital tool for distributing information, so make sure you visit at least once a month for any new updates. Not all information is distributed direct via email.

The ANSA NSW website has been maintained regularly through the past 2015/2016 year and is currently up to date. Anything you would need to know about how ANSA NSW operates, how to start a club, how to join ANSA, competition updates, and record updates etc is on our website. We even have a photo gallery with some great photos of fish our members catch.

Facebook.

ANSA NSW has a Facebook page. Currently the Facebook page has more than 320 likes, but we would really like to see more people like the page. So if you haven't liked the page yet, do it right NOW!! Log on and like ANSA NSW on Facebook.

<https://www.facebook.com/ANSANSW>

The ANSA NSW Committee is always here to service our membership efficiently and effectively, so please do not hesitate to approach the committee about anything.

Enjoy your year and stay safe,

A handwritten signature in black ink, appearing to read 'Joe Garufi', written in a cursive style.

Joe Garufi

Secretary

ANSA NSW Branch

Treasurer's Report

Following is the Financial Report for the Year of 2015 - 2016 as well as the budget for 2016 – 2017. The year finished with a combined bank balance of \$ 30,534.15, which is broken down to the Main account \$ 11,788.11 & the Project account \$ 18,746.04.

Actual against budget saw an increase with revenue raised, mostly due to membership, Club & Member affiliation plus ANSA Direct. Costs were also up in the Website management, Post & Stationary (postal rises), travel & Trophies. This left a surplus difference of approximately \$ 540.00 total against our budgeted costs.

At end of year the Project Account funds are totally allocated to Angel Rings. The balance includes a payment already made for the forward purchasing of \$3000.00 worth of new Angel Rings which are being made at present for delivery in approx 8 to 10 weeks.

Funding this year saw the following:

- Angel Rings received total grant income of \$37,800.00 and \$8.80 in interest. Of that we have a remaining balance of \$18,746.04.
- Fishing 4 Therapy received reimbursement costs of \$1150.00 toward the Family Fishing Day which was used to cover the costs of the day. Paperwork for Milestones 1 & 2 has been submitted to DPI and awaiting reply / funds against Grant L130 with costs to date covered privately, not from the Main Account.

This year has seen an increase in Direct membership which is reflected in the use of our PayPal account. We had budgeted for a PayPal account usage cost of \$12 but actual cost was \$66.45 due to the extra membership coming in from the Website.

As Treasurer I would like to thank the other Committee members for their ongoing support and help through the year and I look forward to what I hope is going to be a growth in membership and member involvement for 2016 - 2017.

Tony Steiner
Treasurer
ANSA NSW

Membership Registrar's Report

MEMBERSHIP REGISTRAR's REPORT FOR THE YEAR ENDED 30 JUNE 2016

2015-16 was another successful year. There were some sizable increases in memberships compared with 2014-15. The increased media attention and threats of lock-outs, I believe, has been a contributing factor. Total memberships as at 30 June 2016 stands at 1,177 members in 32 clubs.

The following table shows membership numbers by club for the last 5 years.

	Club Name	2011-2012	2012-2013	2014-2014	2014-2015	2015-2016
1	A.F.A. Sportfishing Club	11	7	7	6	6
2	Australian Land Based Anglers Assoc	67	66	67	43	55
3	Barrenjoey Sportfishing Club	11	13	N/A	12	11
4	Botany Bay Sport Fishing Club	80	82	91	96	101
5	Campbelltown City Sportfishing Club	42	1	37	31	32
6	Canberra Fisherman's Club	53	22	52	29	47
7	Eden Sport & Game Fishing Club	23	14	13	10	30
8	Happy Hookers Sportfishing Club	12	12	8	11	11

ANSA NSW

Recorder's Report - Competitions

My second year on the state committee has flown by as quickly as the first. It is hard to believe another 12 months has passed as I sit and write this annual report.

Thanks to all my fellow state committee members who work hard behind the scenes on a range of projects which enables ANSA to run as smoothly as it does.

12 Month Competition

Stirring the pot at the end of last year resulted in a significant increase in competition entries this year along with a big increase in participating anglers and clubs. I should have remained quiet as it gave me plenty more work. This year the 12 month comp was just that; a real competition that went down to the wire with the final outcome not known until the end of June

This year saw 65 anglers submit fish up from 46 in the previous year. These anglers represented 12 ANSA clubs.

Total fish recorded were more than double the 112 from last year at 230. The bulk of these fish (96) were placed into the Tag & Release division. John Rankin from the Eden Sport & Gamefishing club dominated this division amassing a massive 2840 points consisting almost entirely of various Marlin species. An awesome effort.

The most popular fish species entered was Dolphin fish (44) followed by Striped Marlin (40) and in joint third position were Australian Salmon and Brown Trout (18).

Tag & Release was again the most popular division.

Congratulations to all the winners and place-getters in this year's competition.

South Sydney AFA was the club to beat all year, leading into the final month, however a few drummer placed into Division 2 (Landbased – Non Game Species) resulted in an 11 point turnaround with just a couple of days remaining enabling the Wollongong SFC to once again poke its nose across the finishing line taking out first place as Champion Club.

Hopefully next year we will continue to see increased activity in the 12 month competition. There will be 5 new sections in next year's competition so it will be imperative that all entries are submitted on the new 12 month comp entry forms so as to line up with the correct divisions.

It should make for a more competitive and exciting coming year.

ANSA Convention Circuit (ACC)

A total of 568 ANSA members attended the 6 conventions that make up the ACC this year. This was a 7.6% drop in total overall attendance when compared to the previous year but this year's figures were representative of only 6 conventions with the demise of the Talbingo convention from the previous year. Taking this into account the average attendance per convention rose from 89 in 2014-15 to 95 this year. Most clubs sent through convention details in a timely manner. There were still a couple that needed a bit more chasing up but things generally were pretty good. The longer it takes for me to receive this information the longer it takes to put out a convention circuit update.

Unfortunately we still have too many instances of people entered as ANSA members who were either not financial or their fees had not been forwarded onto state prior to fishing the convention. This is something all club treasurers need to be aware of. A simple call to the state treasure (Tony) to say the fees are on the way is all that is required to get around this in the future. This unfortunately again saw some people being awarded win's in divisions they were not entitled to.

A big congratulations to all the winners and place getters in this year's ACC which was hotly contested in most divisions. Unfortunately there were no Junior Girl winners this year as all failed to meet the minimum 3 convention criteria. Some of ANSA's top fishers come from the ranks of Junior Girls so hopefully this division can be awarded again next year.

Hope to see you all at a convention this coming year.

Convention	ANSA Attendees 2015-16	ANSA Attendees 2014-15	ANSA Attendees 2013- 14
Glenbawn	92	85	89
Talbingo	-	15	23

Masters Keeper's

On behalf of the ANSA NSW Committee, congratulations to our members who obtained Masters Awards this year:

Aaron Anderson (Wollongong Sport Fishing Club)

- Junior Master Angler Gamefishing
- Junior Master Angler Sportfishing
- Junior Master Angler Sportfishing 20

Paul Cooper (South Sydney Amateur Fishing Association)

- Master Angler Sportfishing 250

Karen Maltby (St George Sport Fishing Club)

- Master Angler All Tackle Length
- Master Angler Sportfishing

Bruce Rayment (St George Sport Fishing Club)

- Master Angler All Tackle Length

Terry Tatton (Wollongong Sport Fishing Club)

- Master Angler Sportfishing 20 Trophy Length
- Master Angler Lure Fishing 250

Phil Turner (St George Sport Fishing Club)

- Master Angler All Tackle 30 Length
- Master Angler All Tackle 40 Length

Mary Worsley (St George Sport Fishing Club)

- Master Angler All Tackle Length

These are all fantastic personal achievements; however there were a number of notable Masters Awards this year including that of Aaron Anderson on achieving his tremendous milestones as a junior. What makes his awards even more special is that Aaron is the first known junior to achieve a "Masters 20" award in ANSA's history, for both NSW and National.

Also, a special mention goes to Terry Tatton with his Trophy Length 20 Masters, taking him to an astonishing 23 Awards.

Please keep an eye on your individual captures as many of you no doubt are only in need of that last elusive capture to be eligible to lodge your claim.

Regards,

Rob Sinclair
ANSA NSW Masters Keeper

Angel Ring Coordinator's Report

It has been a very frustrating year for the Project but only from the perspective of dealing with the NSW Government bureaucracy and their repeated calls for ANSA NSW to carry additional insurance cover to indemnify them against any claims arising from the installation and use of Angel Rings. It has also been a very rewarding year when I get an SMS like this;

"A big thank you to you guys that put the Angel rings at rock fishing spots. Yesterday while fishing for drummer at the northern side of Bombo headland, my friend Steven and myself were hit by two close together freak waves . The first wave I was close to the edge and was pushing Steven back against the water force that came from behind us and I had rock cleats on. The second wave came at us with greater force and it knocked my feet from out under myself, pushed me along the rocks and over about a 2.4 metre drop into what we call the washing machine . When I surfaced I was dragged out to sea about 20 metres. Steven had no idea where I was and when he saw me he was in shock. I yelled that I had rope in the car that was parked about 30 metres away. He ran to get it and while he was on the way back I noticed the Angel ring around the corner. I yelled out to grab the Angel ring and tie the rope onto it which he did. He then threw the ring out and I grabbed it and we waited for a lull before attempting to get up the rocks. Steven yelled out to try now and we managed to get back in with some difficulty climbing the rock wall as I am heavier than him but I was lucky to have good rock shoes on as well. Steven showed what a champion bloke he was even whilst panicking and in shock. I returned the Angel ring to the post and I am grateful that you guys had one there to help in the rescue of myself. I always fish this spot in a full length farmer John wetsuit and that helps me as well. Once again a big thank you
Regards
Shane G"

Its guys like Shane that keeps ANSA NSW and me fighting the good fight considering we now have over 70 rescues and 5 this year alone. It has also been very frustrating having to deal with a series of dreaded East Coast Lows that are becoming quite frequent and are impacting on the assemblies and rings on the rocks. The last ECL saw almost 40% of rings wiped out and 20% of posts and brackets reporting damage. I don't know what is worse the ECL or the NSW Government.

Back to our issues with Insurance, in what has been one of the most deceitful and underhanded scenarios in a long time, a request for 2 new rings at Fingal Spit at Port Stephens by the local NPWS Ranger saw ANSA NSW agree to fund and install these assemblies only to be met by 16 pages of new Standard Consent Conditions for 2 rings that they wanted installed, not ANSA NSW. ANSA NSW had to indemnify NPWS against any claim for damages or compensation from the use of the rings or by the assemblies themselves. NSW Crown Lands followed suit earlier in the year with a 17 page Licence Agreement with the same Consent Conditions, however they decided to accentuate the point and that ANSA NSW as "the Holder EXPRESSLY AGREES that the Minister shall have no responsibility or liability for any loss of or damage to fixtures and/or personal property of the Holder or any agent or servant of the Holder or of any member of the public whilst in or upon the Premises".

This is a far cry from the 1 page Standard Consent Conditions we negotiated 10 years ago with both agencies and a system that worked brilliantly, was efficient and streamlined. To give you an idea of what we have faced I have struggled to get any advice or serious interest from any insurance broker and I am onto my 3rd one to date, letters have gone backwards and forwards to the Ministers responsible, local Police and members of the public are constantly contacting ANSA NSW for new installations, and sadly often in response to recent drownings that they have had and even a local MP trying to pressure me into installing rings only to be told by me to go and see the Minister.

At the end of 2015/2016 it was a stalemate and only one new ring was installed by me on the South Coast in response to a request that some elderly anglers who fish the area could not climb the rocks to get to the existing ring in an emergency so I bit the bullet and did a covert mission. ANSA NSW continued to roll out replacements and spares all over the state during the past 12 months.

In a remarkable twist, when both agencies were asked of the fate of the existing 130 assemblies in NSW on Crown Land and in National Parks they seemed to have buried their heads in the sand for now and I doubt any Minister would be that stupid to tell us to take them out, but stranger things have happened.

2015/2016 will go down as a good year for the Angel Ring Project. Some well-known anglers have benefited from the aid of the rings whilst waiting to be rescued, members of the public were saved and we have battled and beaten the ECL and just have one more fight on our hands, with the Ministers and the NSW Government.

Stay tuned for Round 2 in 2016/2017 and a huge heartfelt thanks to all those who help drive the project including Malcolm Poole and the whole ALBAA Team.

East Coast Low damage at Moruya Breakwall where we have an Angel Ring situated:

The ever smiling Max Castle who looks after the rings in his local area with a selfie after replacing the missing ring at Moruya;

A handwritten signature in black ink, reading "A. Konstantaras".

Stan Konstantaras
Angel ring Coordinator.

Special Projects – Fishing 4 Therapy

As always, each year presents new challenges and growth opportunities, with 2105 / 2016 proving to be no different. The main focus for the year was still our core groups;

Autism (Cerebral Palsy & Down Syndrome);

Acquired Brain injury (Stroke / Heart attack)

Terminally Ill & Physical Rehabilitation

In a smaller way we were also helping with issues of Grief Counselling, Blind adolescents; Aged care; Trips for kids from the Hospital with their siblings, Depression and providing a social outside experience for some. Through some of the individuals who attend regular sessions, we have had therapists from other areas, such as ST Vincent's Hospital attend with a view of how this could be built into a regular programme for their longer term patients.

Our latest enquiry is from the Prince Of Wales Hospital Spinal Unit as part of the rehab therapy for new patients. Issues we are dealing with include getting beds or frames to the Park – still working on that. We were able to participate in a public day at Centennial Park to show what we offer through the programme. Most of our gear was on display along with our two 300ltr therapy tanks that were loaded with fish and turtles. We offered the same hands on experience to the public that the regular attendee's have. The day was a huge success with a confirmed count of over 8000 people through our stand in a 6 hour period. A massive publicity win for ANSA NSW and F4T.

We participated in the Family Fishing Day by holding a funded session for families and friends, with prizes and bbq on offer. We had a full attendance on the day and a huge amount of fun. Our funding is now starting to come through with Milestones 1 & 2 soon to be paid. This will update some of the gear, repairs to trailer and reimburse costs I have been covering to date. This year also saw our largest ever enquiry for requests to join by one off applicants. Normally we only deal with the different health groups or associations, but the result of our publicity, internet searches & word of mouth has seen us more easily found.

Where possible, we are combining individuals to groups & holding one off sessions for some, such as the local Indigenous "Kool Kids Group" from Chifley / Maroubra.

Our programme runs and grows mainly thanks to the volunteer help we receive from the regular helpers, in particular Bill Harvey who is always first to arrive & last to go.

This year the team's efforts were rewarded by winning a National Award at the Recreational Fishing Conference in Queensland. F4T won the award for Project of the Year 2015, recognising a real perceived value for what we do within the recreational fishing community and general public.

I would like to thank our dedicated and well intentioned volunteers for all the help and time they provide. The relationships they develop with the attendees are invaluable and form a large part of the trust element that makes this programme so successful.

Tony Steiner
Special Projects Officer
Fishing 4 Therapy
ANSA NSW.

PS: A big thank you to all those that volunteer their time to help out with our workshops.

Special Projects – Mulloway Tagging (NEWTAG)

The ANSA NSW Pilot Mulloway Tagging Project has gone from strength to strength and some young blood has been added into the mix and including our already outstanding taggers has taken the total of tagged Mulloway to over 1300 in 2015/2016.

Of those 1300 fish tagged we have been fortunate enough to have over 70 fish recaptured with some vital information coming to light on this iconic estuary fish.

What we have learnt in a few short years with the tagging project is that this fish most certainly move and move a good distance;

i.e.: Hawkesbury River – Newcastle

Hawkesbury River – Lake Macquarie

Lake Macquarie – Newcastle

Botany Bay – Port Hacking

Botany Bay – Wollongong

Upper Georges River – Newcastle Harbour

Port Kembla – Port Stephens

There is more but we've just mentioned a notable few that spring to mind,
Let's take the Georges River to Newcastle fish for a coastal journey,

- 1) Georges River – Botany Heads managed to be captured once by a person who is part of the project, tagged and released, then eluded a heavily Mulloway fished system to the ocean.
- 2) Botany Heads – Sydney Heads it passed along the ocean foreshore and beaches without being captured or speared, recreationally and commercially.
- 3) Did this fish enter the Sydney Harbour system for a period of time, we will never know.
- 4) Sydney Harbour – Broken Bay again travelled passed ocean foreshores, reefs and beaches in a highly popular region for spearfishing, recreational and commercial fishing.

- 5) Did this fish enter Hawkesbury River, we will never know but if it did it is amazing it even managed to escape the commercial onslaught of this system we see weekly.
- 6) Broken Bay – Newcastle Harbour travelled past ocean foreshores, reefs and beaches all the way eluding capture from spear fishers, recreational and commercial fishers.
- 7) Then to be recaptured in Newcastle Harbour by a recreational angler.

This Mulloway had quite a journey, but how many other Mulloway did this same coastal migration at the same time? How many did not make it and where captured?

This fish certainly made the quality of life for two fortunate anglers a lot better; you certainly cannot beat that feeling of capturing such a magnificent fish iconic species.

Mulloway obviously are quite a species we are passionate about, imagine a metre Mulloway in a few short years with reform on commercial by-catch and possible recreational size slot limits it would become a very real prospect for the everyday fisherman, I'm sure the Minister Niall Blair would like to hook up the boat thinking we are going to catch a metre Mulloway today.

Whilst that tagging data has given us some great movement and growth info we never had, that point about visiting other estuaries was also addressed by the project when we helped implant 20 acoustic tags into Mulloway in Sydney Harbour in fish ranging from 60 up to a metre, and we are all eagerly awaiting the first collection of data from the listening stations to see where all these Harbour fish have travelled to fill in those gaps above keeping in mind that listening stations are located underwater all up and down the NSW coast. In more good news NEWTAG has formally approached the Dave Irvine Snapper classic on the north coast of NSW (the biggest snapper catch and release comp on the east coast of NSW) with the intent to equip anglers competing with tags to deploy on snapper over 60cm to again allow us to monitor the moments of this biomass of fish. If this goes ahead NEWTAG will enter a team to participate, as well as do a tagging presentation on the night of the briefing. This will be highly beneficial to the Snapper Tagging NEWTAG is carrying out on a smaller level at present.

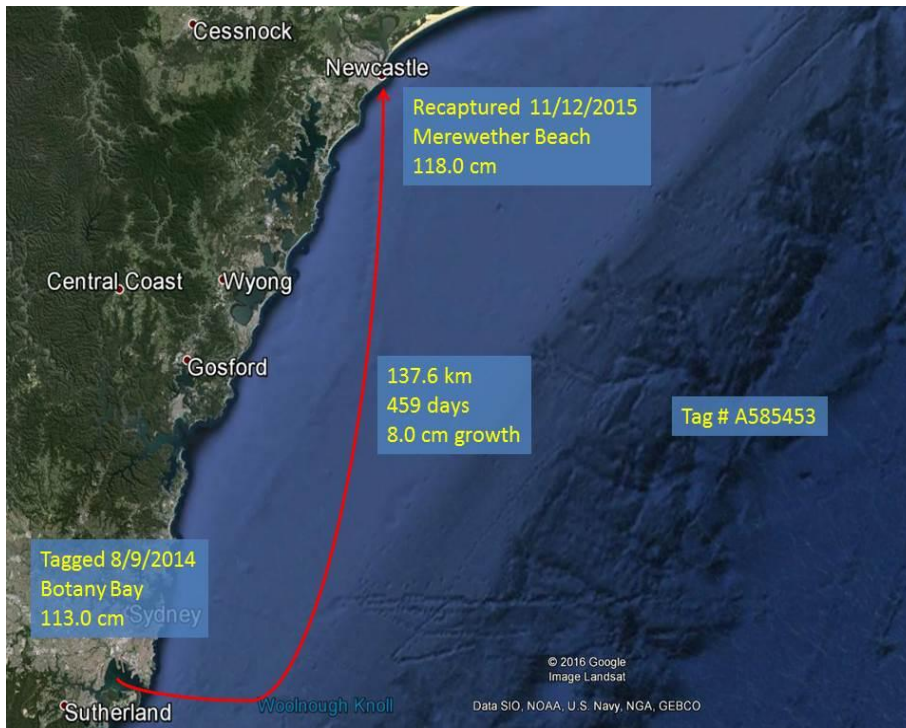

A huge thanks to taggers and advocates like Chris Cleaver for providing the Mulloway Journey above and other taggers like Luke Reilly who always give us a good rap in the fishing media and to our mysterious "Tagger 86" who is leading the charge on mega mulloway.

Top Five taggers overall (as of 31 May 2016):

Tagger	No. fish tagged	Region
Chris Cleaver	249	Everywhere!
Dan Selby	111	Sydney
Mark Pirie	89	Yamba
Paul Blade	85	Coffs Harbour
Ivan Maric	68	Sydney

Top Five largest fish tagged overall (as of 31 May 2016):

Tagger	Total length (cm)	System	Season
"Tagger 86"	155.5	Hawkesbury River	Autumn 2016
"Tagger 86"	152	Hawkesbury River	Spring 2015
"Tagger 86"	147	Hawkesbury River	Spring 2015
"Tagger 86"	145	Hawkesbury River	Spring 2015
Dan Selby	144	Hawkesbury River	Winter 2014

Chris Anagnostou
ANSA NSW NEWTAG

Environmental Report

This year we saw the NSW Marine Estate Management Authority begin a new way of evaluating our waterways and the Hawkesbury Bioregion was the first cab off the rank. This area runs from Newcastle to Wollongong and 3 nm out to sea. Most of our time has been spent consulting and providing submissions as part of the process but we think it's fitting we share with the ANSA NSW members the words and points put up by the Recreational Fishing Alliance of NSW as a reminder of what we face and how locking out anglers seem to be the low hanging fruit when it comes to actionable and cheap fixes to keep the conservationist sector happy. It's cheaper than fixing the other problems, but we need to be more vocal in our arguments.

Improving water quality and reducing litter and marine debris

More work needs to be done to reduce litter, sewerage, industrial pollution and plastics in all our waterways and must include our coastal waters and offshore waters. The only way this can have any effective impact to even attempt to clean up our waterways is if it is well funded and the NSW Government shows a willingness to remove its tendency to blame subsequent governments about these "legacy" problems like outdated sewerage outfall infrastructure, Dioxins and now PFOS issues in the Hunter River. Marine Pollution including NSW Government approved or legacy issues need to be addressed. MEMA has failed to address the real threats to biodiversity. The focus of MEMA in this area has been extremely narrow and has failed to look at the big picture which will require major changes and a large funding commitment to address, something the NSW Government is not willing to do as indicated by MEMA in the discussion paper.

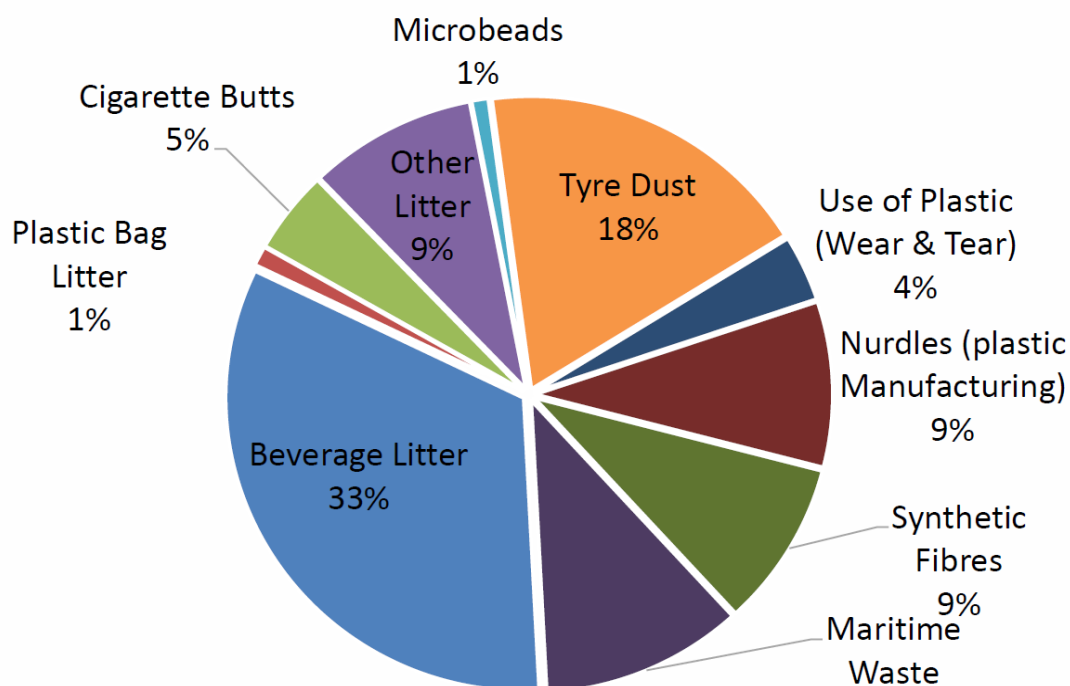

In order to have any significant improvements in Biodiversity the NSW Governments needs to address how it currently does business and not rely small scale projects that cannot feasibly have an significant impact on the issues below when we have a growing population and expanding urban footprint in the Bioregion. Currently we are potentially seeing a huge amount of pollution entering our waterways as indicated below;

- ½ of Marine Plastic Pollution comes from land based littering – 65% are beverage containers and include non-recyclable coffee cups both plastic and Styrofoam.
- Maritime Waste represents 11% of plastic pollution in Australia.
- There are no (achievable) solutions to eliminate 1/3 of all marine plastic pollution (nanoplastics when released)
- Production Losses and Discharges in waste & recycling are rapidly becoming a major source (at least 9%);
- While microbeads and bags only represent 2% of the total pollution they are a major threat to biodiversity

Catchment Area	Estimated plastic entering the marine environment (tonnes/P.A.)			Total	Catchment Population
	Plastic Litter	Commercial and Industrial Activities	Residential microplastic		
Wollongong	624	260	420	1304	203,000
Illawarra	1340	560	900	2800	436,000
Botany & Port Hacking	3814	1590	2600	8004	1,500,000
Sydney Harbour	3051	1270	2050	6371	1,200,000
Middle Harbour	510	210	350	1070	200,000
Hawkesbury / Nepean	2034	850	1350	4234	800,000
Lake Macquarie	260	110	175	545	190,000
Newcastle	926	330	270	1526	670,000
Totals	12559	5180	8115	25854	5,199,000

Major Sources	Plastic Bottles	Pellet losses	Microbeads
	Cigarette Butts	Waste escaping landfills & recycling facilities	Laundry - Synthetics
	Plastic Bags	Marine Industries	Wear & tear of plastic goods
	Coffee Cups		Tyre Dust

Sources of Marine Plastic Pollution in Australia

Images and data courtesy Boomerang Alliance

The RFA has shown that without a willingness to address the threats to our marine biodiversity and a willingness to change the way it operates, the NSW Government will continue to use lockouts of recreational anglers as a way of justifying it is protecting the biodiversity of the bioregion when the real threats are overlooked.

<http://www.abc.net.au/news/2016-03-03/sewage-spilled-into-sydney-harbour-a-'cheap-fix'/7216028>

The RFA and all of the bioregions residents know that it is widely recognised that dumping toxic waste into the ocean is undesirable from a public health and environmental point of view. The costs of past policies that have facilitated the wholesale dumping of toxic waste into the Sydney sewers have recently become painfully obvious, let alone recent plans to dump even more into Sydney Harbour. Fish have become contaminated and this has cost the fishing industry millions of dollars in lost sales. Sydney Water and the NSW Government are guilty of not conducting any recent studies around our coastal and offshore toxic sewerage dumps to look at the levels of organochlorines, chlordane, hexachlorobenzene, mercury and DDT and deildrin.

The RFA also questions the validity of the Threat and Risk Assessment and the NPWS Incident Database which could have potentially failed to recognise or address marine debris as an impact to species protected under the Threatened Species Act and the Fisheries Management Act. Once again in data supplied to the RFA, entanglement from marine debris, ingestion and nanoplastics seems to have been overlooked by MEMA.

Entanglement in Australia;

- Affects at least 200 marine species
- 44 sea bird species, 9 cetaceans, 11 pinnipeds, 31 invertebrates, and 6 sea turtle species are suffering from entanglement
- The rate of entanglement by marine debris has increased by 40% over the past 10 years
- 20% of entanglements reported are from litter (bags, ribbons, packing tape)
- Between 5-15,000 turtles become entangled in 'ghost nets' in the Gulf of Carpentaria
- 40,000 fur seal deaths by entanglement p.a.

Ingestion in Australia;

- 96% of all biodiversity is vulnerable to the ingestion of microplastics
- 65% of all seabirds studied have been found to have plastic in their gut. By 2050 CSIRO estimates it will reach 99%
- 30% of all turtles autopsied in Moreton Bay have been found to have ingested plastic
- Coral has been found to be ingesting microplastics at about the same rate as plankton

Nanoplastics;

Whilst the main focus of MEMA has been microplastics the RFA believes that nanoplastics present a bigger threat. Microplastics are pieces between 100 nm and <5 mm; nanoplastics are smaller than 100 NM (a human hair is 75 nm in diameter).

- It is likely that approx. 20,000 tonnes p.a. of plastic pollution is missed in previous studies as they are too small to identify / capture (primary microplastics and secondary nanoplastics).
- While they weigh far less; at 1 mg per piece of microplastic this represents 20 trillion pieces of plastic entering our marine environment each year (compared to an estimated 34 billion larger pieces in Australian waters)
- Sooner or later every piece of plastic that enters the marine environment will abrade and degrade until it reaches the nanoplastic size.
- These materials are a primary threat to biodiversity – 96% of the food chain are likely to digest them & the particles can then pass from the gut into the bloodstream

“Plastic is so permanent and so indestructible that when you’ve tossed it, in the ocean or even into a dustbin ... it does not go away” **Sir David Attenborough**

“Once in the ocean, plastic does not go away: it fragments, breaking down into smaller pieces and acts as a vector for chemicals such as persistent organic pollutants that may be transferred into the food chain upon ingestion by marine organisms. Transported by ocean currents, few places around the globe have not been infested by this material.” **Achim Steiner, Executive Director UNEP**

“Anyone consuming an average amount of seafood will ingest about 11,000 plastic particles each year” **Prof Tamara Galloway, Eco-Toxicologist, Exeter University**

Dioxins and other Pollutants;

The RFA has been unsuccessful in trying to access recent Sydney Water data on the pollutants that fish are ingesting around our coastal and offshore sewerage outlets. It is even more concerning to realise that no recent testing of fish species destined for human consumption is being undertaken by any NSW Government agency. The very same toxins that are present in our bays and estuaries and are ingested by fish destined for the table would have to be present in our sewerage outfalls. MEMA has failed to acknowledge this risk in any significant way.

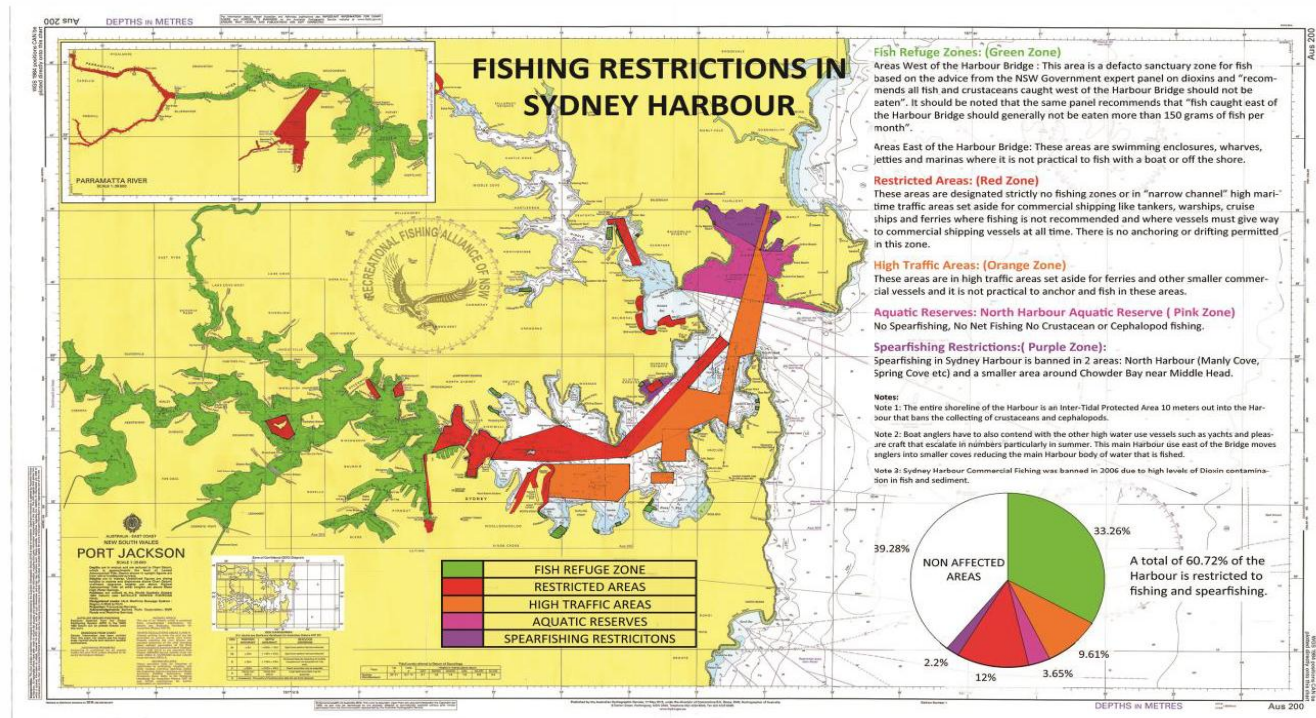

Whilst we do have risk warnings, information and dietary advice in Sydney Harbour, Botany Bay and Newcastle, there seems to be a reluctance by the NSW Government to give anglers and the general public that consume seafood any information on what is happening along our coast and offshore.

Dioxins and heavy metals are so prevalent in Sydney Harbour drastic action has been taken and swimming after rain is advised against in Botany Bay.

Whilst the NSW Government fails to do anything substantial to address these threats to the biodiversity in the Bioregion, it has recommended 59 sites for further lock outs and wants to ban angling as a measurable outcome in addressing the supposed threat is has on the biodiversity in the Bioregion to satisfy itself that MEMA has been an effective tool. Angling in the Bioregion is already restricted by a lack of access to the foreshore or coast, parking

restrictions, inadequate number of boat ramps and parking for boats/ trailers and Port or Airport land reclamation and security issues. In Sydney Harbour alone the access to areas anglers can safely catch and consume fish is severely restricted as shown below.

With plans to lock out anglers out of Clifton Gardens, North Manly and further restrict angling in the Nth Harbour Aquatic reserve the RFA questions why MEMA would take away the safest places anglers can catch and consume fish. Furthermore when the proposed areas for lock outs are overlayed with other maps that highlight significant Lead (Pb) deposits in the Harbour the RFA questions the wisdom of taking the safest areas for food consumption away from anglers. The threats to biodiversity are already present and need to be addressed, the threats from recreational angling are insignificant especially in the well managed fishery we have in NSW. Locking anglers out of any spot in the bioregion will do absolutely nothing to address marine pollution and to say otherwise is misleading.

Reducing water pollution from catchment runoff

The RFA feels that MEMA needs to develop complaint development and environmental policies as part of a review of the State Environmental Planning Policies (SEPP'S) to tackle

water pollution from catchment run off in the Bioregion that recognise and identifies any impacts to recreational fishing. MEMA has been focussed on report cards, developing guidance, Strategic Planning Frameworks, updating Best Practice Management Strategies, developing frameworks, reviewing pollution sources (but ignoring raw and treated toxic sewerage dumping), research, supporting extension, engaging and finalising reviews. The RFA cannot find any tangible on ground initiatives being discussed or implemented that are actually funded to reduce water pollution in the supplied documents. Getting projects funded and up and running right now is what is needed, not locking anglers out of fishing spots.

This is what we are faced with in 2015/2016 in the Hawkesbury Bioregion as ANSA NSW anglers, in 2016/2017 it will be the same case for the rest of NSW and it seems the only answer MEMA has is to lock out anglers.

ANSA NSW Committee.

Roy Winter Memorial Trophy

Excellence in Rock Fishing

The inception of the Roy Winter Memorial Trophy occurred during the mid 1970's when Mr and Mrs Winter presented the Perpetual Trophy to ANSA in memory of their son Roy who passed away in his early 20's before he could achieve his fishing goals.

The trophy is not awarded as a matter of course each year but rather only when, if in the Committee's opinion, a significant capture has been made from the rocks during the competition year. Entries are not called for with the winners name usually obtained from examining all rock captures made from the 12 Month Competition.

YEAR	ANGLER	DESCRIPTION
