# History of ANSA NSW Branch

## Date Line

- On the 12<sup>th</sup> August, 1967: – Steering Committee was formed consisting of the following people:

**PRESIDENT** John Bethune

**SECRETARY/  
TREASURER** John Erskine

**PUBLICITY** Dick Lewers

- On the 4<sup>th</sup> May 1968: – The NSW Branch of ANSA was formed with the following office bearers:

**PRESIDENT** John Bethune

**VICE PRESIDENT** Dick Lewers

**SECRETARY** Don Brooks

**TREASURER** Hank Newman

- On the 13<sup>th</sup> November 1968, the St George Sportfishing Club became the first ANSA NSW affiliated club.
- On the 8<sup>th</sup> October 1986, ANSA NSW Branch became incorporated.
- On the 12<sup>th</sup> February 2000 ANSA NSW Branch became one of the founding members of the Recreational Fishing Alliance of NSW.
- 2007 ANSA celebrated 40 years.
- 2018 ANSA celebrates 50 years.

# **President's Report**

What a year it has been – challenging to say the least, but after many years at the helm I still get a huge kick out of working with a great Committee and getting out whenever I can to meet and greet the clubs and also wet a line occasionally.

2018 also marked our 50<sup>th</sup> Year. Such a great milestone to reach, especially with an increase in membership numbers to bolster our voice as the leading sportfishing group in NSW. I did get out to almost every convention this year and caught up with old and new friends and I am still amazed to see that the engine rooms of the ANSA NSW clubs can still produce some great events that bring us all together.

The politics, letter writing and representation roles that come with the job are challenging roles to deal with, but the welcomed distractions are our NEWTAG and Fishing 4 Therapy Project which provide a welcome relief for all. A massive thank you to all who work behind the scenes and keep the ball rolling for these projects.

It's not too often I have to push this remarkable committee team to do its job. Cheques get banked. Bills get paid. Letters get sent. Membership cards go out. Records and masters are sent and so on. And all the while we continually try to serve the member clubs as best we can.

I put this list up below last year and to say I can tick some things off as being completed would be remiss of me. These issues drag over many years and in 2017 / 2018 are still on our radar and sadly will be still on our radar in 2018/2019;

- Ongoing lobbying for NSW government recognition of the RFA NSW as the official State peak body for all NSW recreational fishers
- Engagement in plans for creation of a Hawkesbury Bioregion Marine Park - including a Sydney Harbour marine park and a campaign for the Harbour be declared a recreational fishing haven
- Lobbying for no netting in the Hawkesbury, Shoalhaven and Tuggerah Lakes and for these waterways to be declared recreational fishing havens
- Continued pressure on agencies such as the EPA, Sydney Water and Councils for the detection and prosecution of offenders for water contamination and fish kill events and also for financial penalties when imposed by the Land and Environment Court to be directed into local habitat rehabilitation and other fishery related projects rather than consolidated revenue. Already we have potentially secured \$200000 for extension of the DPI Mulloway stocking program in Botany Bay from such penalties.
- Pursuing financial offsets for loss of recreational fishing access. It is our goal to build upon the \$5mill for loss of fishing access within Botany Bay which is earmarked for the installation of 2 additional artificial reefs off Southern Sydney and other recreational fishing amenities.
- A watching brief on the draconian "on Street" boat trailer parking regulations which now effectively restrict parking on public streets for a maximum of 28 days across NSW. While only a small number of councils across Sydney are running pilots of this restrictive practice all boat owners and the boating industry should be very concerned if this discriminatory regulation is adopted state wide.
- Campaign to ensure that recreational fishers are not unjustly prohibited from fishing off public jetties and wharves

- Engagement with relevant authorities concerning the regulatory requirements for compulsory wearing of lifejackets by rock fishers. While there is considerable merit in having rock fishers wear lifejackets it is critically important that the type of jacket to be worn is of a recognised Australian standard that is specific and tailored for rock fishing use
- Continued rollout of the Angel Ring programme and safe fishing awareness/ education
- Expansion of the ANSA NSW Newtag programme
- Support for the installation of mesh screens on inland waterway irrigation pumps to minimise mortality impact on juvenile freshwater fish species etc.
- Support for the campaign to introduce Platypus friendly yabby traps
- Involvement and input into the ongoing review of NSW commercial fishing reform

This is where we need help and succession planning to pick up where many of us will be leaving off. The fight does not end and the good fight needs good people to run good clubs. We have built a great platform of clubs and advocacy roles over the years but we need fresh blood to keep pushing our agenda which seems to have shifted from ethics and conservation, to maintaining access and our right to fish.

In our 50<sup>th</sup> year put your hand up, we need help at ANSA NSW and the other dual roles the ANSA NSW Executive have taken up. Roles at the Recreational Fishing Alliance of NSW, ANSA National, Australian Recreational Fishing Foundation, State and Federal government appointed committees and the list goes on and essentially these are all underpinned by a common theme – retaining recreational fishing access to the water, land and resource, but more importantly having the right team of willing people at the helm.

ANSA NSW

# **Vice President's Report**

2017/18 was very much a carry over from previous years with still a lot of unfinished business to be resolved at a National and State level. The range and extent of old and new issues and challenges continue to stretch our volunteer resources but to do nothing will have dire consequences for all current and future generations of recreational fishers.

It is impossible for ANSA to tackle all these issues and challenges alone and it is imperative that all recreational peak bodies - state and national - which have recreational fishing at heart, rally together and speak as one voice in advocating for the promotion and protection of recreational fishing and preservation of the marine environment and fish resources across all boundaries.

In NSW we are indeed fortunate to be supported by the NSW Recreational Fishing Alliance (RFNSW) which is the collective voice of recreational fishing in NSW and on a national front we have a strong ally in the Australian Recreational Fishing Foundation (ARFF). ANSA is a foundation member of both these organisations and plays a pivotal role in looking out for the interests of recreational fishers and engaging with government and the many government agencies that have influence and say in the direction and management of our fisheries and the marine environment.

Also at state level we have a voice on the NSW Ministerial Fisheries Advisory Council (MFAC) and the Recreational Fishing NSW Council (RFNSW) and representation on the NSW Recreational Fishing Saltwater Licence Trust Expenditure Committee (FSTEC). At a national level we have member representation on the Ministers Advisory Council and direct engagement with the Australian Fisheries Management Authority (AFMA) and Department of Agriculture Fisheries and Forestry (DAF) on issues pertaining to the management of our Commonwealth fisheries. ANSA's membership relationship with IGFA also ensures that we have a voice and an ally on the international scene

ANSA is also at the leading edge of fish habitat preservation and rehabilitation initiatives both nationally and at a state level via its membership of Ozfish Unlimited and the NSW Fish Habitat Partnership. ANSA is a foundation member of both these organisations whose charter is to lead the charge on projects and funding essential for the rehabilitation and preservation of our national waterways and to rejuvenate fish stocks back to levels they were in our grandparent's time - no mean feat but at least the game has started.

It is no easy task interacting with the many differing factions that are putting recreational fishing in jeopardy but it is gratifying how successful we can be as a collective voice by presenting well thought out alternative scenarios and possible solutions in an objective and persuasive manner. It is not surprising that within the ranks of government and those agencies that drive and influence recreational fishing policy and outcomes there are many individuals who themselves are recreational fishers and are behind the scene allies and supporters. We just need more of them and with a mind to be helpful and supportive

We won't win on every issue and at times the best achievable outcome is preservation of the status quo so that recreational fishers' interests are not going backwards. Some of the more significant issues that ANSA is actively involved with and which have a National and NSW impact include;

- Supertrawlers. While we can claim a victory in driving factory / super trawler vessels like the Margiris and Geelong Star from our National waters the fact remains that many of our fisheries still remain under threat from large scale fishing operations. This is particularly relevant to the Small Pelagic Fishery (SPF) where the commercial sector is continually coming up with novel ways of trying to skirt around the government imposed ban on legally defined super trawlers being able to fish within Australian waters. The latest proposal involves the transshipment of catch to a large freezer cum processing vessel. While technically this is not a super trawler fishing operation, the use of a very large factory processing vessel in conjunction with a fleet of fishing vessels smaller than a super trawler arguably poses a greater risk to our national fishing resources than a super trawler. ANSA has officially voiced concerns over this style of fishing operation and continues to stress that the

national interest and best economic use of these low value fish stocks is to leave them in the water as feedstock for larger more valuable species.

- **Commonwealth Marine Reserves.** After more than a decade of deliberations and campaigning with politicians of all persuasions to stop the unjustified lock out of recreational fishers in Commonwealth marine reserves, the pathway is now seemingly clear for the Coalitions Marine Reserve Management Bill to now become law and our national network of reserves finally protected. While the Coalition's plans for the marine reserves do not embrace every concession sought on behalf of recreational fishers, we did secure a number of wins in the Coral Sea and WA and the revised plan is a vast improvement on what Labor and the Greens had in store for us some 4 years ago. Expressions of interest for positions on the Marine Park Advisory Committees have now been called for and ANSA in conjunction with other ARFF members is encouraging the Australian government to ensure that ARFF plays an official role in determining that the right people get onto these committees to look after the interests of recreational fishers. The prospects of financial offsets for loss of fishing access to some locations are encouraging and it is envisaged that such funds could be invested in the development of new artificial reefs and fish attracting devices etc.
- **Southern Bluefin Tuna.** The deadline for Australia to include the catch of commercial, recreational and indigenous fishers in the IOTC (Indian Ocean Tuna Commission) quota for SBT is fast running out. The Australian government is keen for the 3 stakeholders to reach a consensus on how to best share and manage this tightly controlled fishing resource. Major challenges in reaching consensus include knowing the extent of the recreational take of SBT and setting a realistic share of the national quota, compensating the commercial sector for the loss of this quota and establishing a practical protocol for ongoing management of the recreational quota and who pays for all of this. Already in Victoria, surveys of the recreational take are in progress and the first round of a series of state stakeholder workshops has taken place. SBT workshops will shortly be coming to NSW and SA. There are concerns that much tougher size and bag limits for the recreational sector might be part of this management package. The real concern is that unless all SBT stakeholders can agree to a workable management solution then the quick and easy option for the government might be to leave the entire quota with the commercial sector. This option seems unlikely but unless a sensible and constructive dialogue can be progressed between the stakeholders then the government will have no choice but to step in.
- **Murray Darling Basin -** With ongoing drought across most of the nation the already overstressed MDB is going from bad to worse with dire consequences for our inland fish resources and marine habitat. The challenges for those tasked with management of MDB water allocations are enormous and striking the right balance for sharing water flows for the environment and agriculture/community consumption are getting tougher by the day and sadly have become increasingly politicised. To put it simply no water equates no fish habitat and no fish. We need to strike the right measure between socio economic need and the needs of nature and adopt more efficient means of preserving our water resources when in abundance. We will continue to press government at a national and state level to recognise recreational fishing and the preservation of inland fish resources as an integral part of the ongoing management plan for the MDB and our inland waterways.
- **Carp Eradication.** While we can't make it rain we can do more to better manage what is in our waterways. The program for release of the Herpes virus to cull much out the nation's carp population is still being scientifically investigated. While scientific opinion is overwhelmingly positive about the use of the carp virus and its lack of impact on other fish species, there is still much work to be done on evaluating the impacts a massive and instantaneous carp cull will have on water quality in our

rivers and dams and potential public health consequences. How do you very quickly clean up potentially millions of tonnes of dead carp and who pays for this. Expectation is that the virus will not be released nationally until trials have been conducted in a protected catchment and the science is conclusive about when the timing and conditions are best suited to achieve a maximum cull. This could be some years away assuming that the government sticks to its commitment to release the carp virus.

- White Spot Disease. The spread of this disease now seems to be under control but our national quarantine and controlling authorities need to ever vigilant to ensure that there is no further repeat of infected raw prawn product being imported into Australia and finding its way into our marine environment as fish meal and recreational fishing bait. Very pleasingly it has been acknowledged that there is nothing to be gained from trying to lay the blame for this biological disaster on recreational fishers.
- Recreational Fisher representation. The Australian government continues to acknowledge the need for a national recreational fishing peak body to collectively represent and speak for all Australian recreational fishers. As previously mentioned ARFF and its state and national peak body members fill this role and are now the acknowledged two way communication conduit between government and the recreational fishing sector via the newly established National Recreational Fishing Council. The Australian government also recognises the critical need for up skilling of those individuals representing recreational fishers on various fishery management and advisory panels etc and has committed to make funds available for this to happen and to ensure that not only the best people serve on these panels etc but the level of recreational fisher representation is more equitably weighted in our favour.
- Support for the conduct of a national / state by state study into the socio economic value of recreational fishing.
- Recognition of recreational fishing in Commonwealth and State Fisheries Management Acts.
- Support for enhanced investment in fisheries research and recognition of the role and value of citizen science.
- Engagement in the development and delivery of a national recreational fishing education programme.

On the ANSA National scene we also celebrated the 50<sup>th</sup> year anniversary of ANSA with a very successful conference event in Cairns organised by ANSA Qld Branch. It was also fitting that as part of these anniversary celebrations that sportfishing legends and founding members of ANSA, Vic Mc Cristal and Eric Moller were immortalised with the opening of a fitting memorial on the Cardwell foreshore. NSW Branch will also be celebrating its 50 year anniversary later this year.

On a personal level I was humbled at the 2018 National Recreational Fishing Conference held in Darwin to be the recipient of the Mal Ramsay Lifetime Achievement Award for Recreational Fishing. This award presented by ARFF and its national and state member peak bodies recognises the contribution made by ANSA towards the advancement and betterment of recreational fisher interests.

On the NSW scene specifically we have been actively engaged with issues such as:

- Ongoing lobbying for NSW government recognition of the RFA NSW as the official State peak body for all NSW recreational fishers
- Engagement in plans for creation of a Hawkesbury Bioregion Marine Park - including a Sydney Harbour marine park and a campaign for the Harbour be declared a recreational fishing haven

- Lobbying for no netting in the Hawkesbury, Shoalhaven and Tuggerah Lakes and for these waterways to be declared recreational fishing havens
- Continued pressure on agencies such as the EPA, Sydney Water and Councils for the detection and prosecution of offenders for water contamination and fish kill events and also for financial penalties when imposed by the Land and Environment Court to be directed into local habitat rehabilitation and other fishery related projects rather than consolidated revenue. Already we have secured \$200000 for extension of the DPI Mulloway stocking program in Botany Bay from such penalties.
- Pursuing financial offsets for loss of recreational fishing access. It is our goal to build upon the \$5mill for loss of fishing access within Botany Bay of which \$2.5 mill has already been expended on the installation of 2 additional artificial reefs off Port Hacking – the “John Dunphy Reefs” and for investment in other recreational fishing amenities.
- Intervention in the proposal by the NSW government to hand over management of the SE Trawl Fishery to the Commonwealth. This is not in the best interests of any stakeholder or the fishery itself. The better option which is supported by 23 out of 24 licensed SE Trawl fishers is to exit the fishery with an appropriate compensatory package. It would be a real win for everyone and targeted fish species if this type of commercial fishing activity off NSW south coastal waters was come to a negotiated end. Let’s hope we can bring this to a meaningful and productive conclusion.
- A watching brief on the draconian "on Street" boat trailer parking regulations which now effectively restrict parking on public streets for a maximum of 28 days across NSW. While only a small number of councils across Sydney are running pilots of this restrictive practice all boat owners and the boating industry should be very concerned if this discriminatory regulation is adopted state wide.
- Campaign to ensure that recreational fishers are not unjustly prohibited from fishing off public jetties and wharves
- Engagement with relevant authorities concerning the regulatory requirements for compulsory wearing of lifejackets by rock fishers. While there is considerable merit in having rock fishers wear lifejackets it is critically important that the type of jacket to be worn is of a recognised Australian standard that is specific and tailored for rock fishing use
- Continued rollout of the Angel Ring programme and safe fishing awareness/ education
- Expansion of the ANSA NSW Newtag programme
- Support for the installation of mesh screens on inland waterway irrigation pumps to minimise mortality impact on juvenile freshwater fish species etc.
- Support for the campaign to introduce Platypus friendly yabby traps
- Involvement and input into the ongoing review of NSW commercial fishing

This is a once again a remarkable level of activity by a very small group of individuals who also play vital roles in keeping ANSA at the forefront of recreational fishing by ensuring that its sport fishing activities and member services are in tune with member needs and for ANSA to be the organisation of choice for all recreational fishers.

John Burgess  
Executive Officer/ Director - ANSA National Ltd  
Vice President - ANSA NSW Branch

# **Secretary's Report**

Another eventful year has past and the committees' commitment has once again been put to the test. Needless to say, the committee passed with flying colours.

Once again, ANSA was called to stand up, defend and curtail various issues to ensure that our members' rights and those of every recreational angler in NSW and throughout the country were upheld and protected. Our membership can be assured that ANSA has been well represented at both a State and Federal level.

The committee has worked hard to ensure that membership renewals were processed. This was a big challenge for our membership officer Pat Ashbury and treasurer Tony Steiner. Big thanks to both of you.

The committee ensured that all the latest updates for the ANSA NSW 12 Month Competition, ANSA Convention Circuit and Records were distributed as regularly as possible. This is a massive job. Well done to our recorders for records and competitions, Bruce Tozer and Travis Anderson. Thanks for your commitment throughout all the year.

Our project co-ordinators, Stan Konstantaras, Tony Steiner and Chris Anagnostou have performed exceptionally well with our Angelring, Fishing 4 Therapy and Newtag projects in the last year. Recognition at all levels of Government, both at a State and Federal level has been massive. More lives saved through the Angelring Project, successful and useful data gathered through our Mulloway & Snapper Tagging Project and great results for our Fishing 4 Therapy Project. Well done gentlemen.

To the remaining committee and other volunteers, THANK YOU! Your commitment is very much appreciated and I look forward to working with you all once again.

## **Promotional Material**

As you must all be aware, ANSA promotes itself through what it does and stands for, but if you are looking to promote ANSA through your clubs or at conventions or your local community do not forget that ANSA has promotional brochures available and there is always ANSA ware that can be purchased. If you need any more information on promotional gear, please get in contact with me and I will guide you through the process.

## **Committee Meetings**

The Committee meets quarterly during the fishing calendar year with its most recent meeting being August 2018. Don't forget clubs are more than welcome to attend committee meetings as they see fit. It probably would not be a bad idea to come and see how things are run at a State level. It can be very rewarding and many hands make light work. We are always looking for new enthusiastic club members to join the committee and help run ANSA NSW.

## **The Email Database**

The ANSA NSW email database currently hosts all ANSA NSW affiliated Clubs. Most of the Clubs on the database have minimum one contact. In total, the database hosts more than 120 points of contact, which includes Sportfishing NSW members. As in previous years, the electronic mailing system has really helped ANSA NSW operate more efficiently, economically and has aided their capability for distributing up to date information quickly. Hundreds, if not thousands of emails are distributed to all our member clubs each year. If you are not receiving electronic information from ANSA NSW please let me know and I will most definitely add you as a contact to the database. Do not forget, ANSA NSW has an email protocol and your addresses will be used for distribution of ANSA NSW information only.

## **Club Newsletters**

It was very encouraging to see that ANSA NSW Clubs are sending out more newsletters than ever before. It was especially encouraging that information distributed by ANSA NSW featured in the newsletters. Well done to all those club volunteers that put their newsletter together. Keep up the great work!

### The Website.

The ANSA NSW website is the central information hub for all ANSA NSW members. It is a vital tool for distributing information, so make sure you visit at least once a month for any new updates. Not all information is distributed direct via email.

The ANSA NSW website has been maintained regularly through the past 2017/2018 year and is currently up to date. Anything you would need to know about how ANSA NSW operates, how to start a club, how to join ANSA, competition updates, and record updates etc is on our website.

### Facebook.

ANSA NSW has a Facebook page. Currently the Facebook page has more than 500 likes, but we would really like to see more people like the page. So if you haven't liked the page yet, do it right NOW!! Log on and like ANSA NSW on Facebook.

<https://www.facebook.com/ANSANSW>

The ANSA NSW Committee is always here to service our membership efficiently and effectively, so please do not hesitate to approach the committee about anything.

Enjoy your year and stay safe,

A handwritten signature in black ink, appearing to read 'Joe Garufi', is displayed on a light gray background.

Joe Garufi  
Secretary  
ANSA NSW Branch

## **Treasurer's Report**

Following is the Financial Report for the Year of 2017 - 2018 as well as the budget for 2018 – 2019. The year finished with a combined bank balance of \$ 20,111.01, which is broken down to the Main account \$ 16,528.38 & the Project account \$ 3582.63.

Most of the deficit this year against the Project account was mainly due to a large order for new Angel Ring stock, approx \$7400.00 and a slowness from DPI to release the funding due as it rolled into the following Financial Year.

This year saw an increase in budgeted income, Main Account, due mostly to Project reimbursement costs and extra memberships. However, expenditure against budget were mostly on track, with an approx \$1300.00 extra spent, mostly with Insurance increases and higher or extra Postage costs.

As Treasurer I would like to thank the other Committee members for their ongoing support & help through the year.

Tony Steiner  
Treasurer  
ANSA NSW

# Membership Registrar's Report

## MEMBERSHIP REGISTRAR's REPORT FOR THE YEAR ENDED 30 JUNE 2018

2017-18 membership saw an increase of 127 members. This was mostly accredited to The South Coast Mega Bonanza incorporating ANSA Membership into their competition registration fees. We also welcomed The Scots College, a group of enthusiastic teachers and students and Basin Lure and Fly Anglers after an absence of several years. Total memberships as at 30 June 2018 stands at 1,295 members in 34 clubs.

The following table shows membership numbers by club for the last 5 years.

	<b>Club Name</b>	<b>2013-2014</b>	<b>2014-2015</b>	<b>2015-2016</b>	<b>2016-2017</b>	<b>2017-2018</b>

Here's to a successful 2018-2019

Pat Ashbury Membership Registrar ANSA NSW

# **Recorder's Report - Competitions**

Another year of competitions has been run and won with many anglers recording some excellent captures.

## **12 Month Competition**

This year again saw 72 anglers submit fish representing 8 ANSA clubs.

A total of 152 fish were recorded which was well down from over 200 entered last year.

The most popular section again this year was Tag & Release. The most popular fish species was again Marlin (29) with all but 6 being tagged. The next most popular species was Dolphinfish (20) and coming in a close third Australian Salmon, registering 18 captures. Congratulations to all the winners and place-getters in this year's competition.

Like last year, this year's 12 month comp really did come down to the wire with the final outcome for Champion Club not being decided until the final entries were tallied at the July 14 deadline.

Like last year it was a two club race between both Wollongong and South Sydney to decide champion club.

It was pleasing to see all 25 divisions were won with all but one division being completely filled. Historically the Junior Boys Division has always been hotly contested, but surprisingly this year there was only a single entry.

## **ANSA Convention Circuit (ACC)**

<b>Convention</b>	<b>ANSA Attendees 2017-18</b>	<b>ANSA Attendees 2016-17</b>
Glenbawn	86	86
Burrinjuck	107	83
Nowra	59	51
Narooma	108	85
Sydney	148	125
Lake Lyell	91	96
South Coast	131	35
<b>Total Attendance</b>	<b>730</b>	<b>561</b>

A total of 730 ANSA members attended the 7 nominated conventions this year which was a 30% increase in attendance from last year.

The concept of the ACC was initiated to reinvigorate the dwindling numbers of members attending the respective ANSA conventions. As can be seen from the numbers, attendance has improved markedly and we now have 7 excellent conventions to fish up and down the coast along with our inland waterways throughout the year.

The ACC has done its job and due to the complexity in gathering and coordinating the convention circuit data from each convention, the ACC will no longer be run.

A big congratulation to all the winners and place getters in this year's ACC. Unfortunately however, like last year, there were no girls who achieved the minimum of three convention attendances and as such this division was not awarded.

I have enjoyed my four years in the role of competitions recorder and having had the privilege of working alongside a great group of people on the state committee. I wish the new incumbent into this role all the best and hope they gain as much satisfaction from it as I have.

**HOOKEM GOOD  
TRAVIS**

## **Masters Keeper's**

The ANSA Masters system was designed to develop fishing skills, initially with a bias towards fishing with light lines, however over time it has evolved in order to provide the angler with additional challenges in categories such as; Tagging, Freshwater Impoundment, "Length Only", and "Species" Master Awards to name just a few.

Whilst this year we only had four members claim Masters Awards, it was good to see the continuation of a growing trend in applications beyond the line based categories.

These are all fantastic personal achievements and on behalf of the ANSA NSW Committee, congratulations to our members who obtained Masters Awards this year:

**Mark Holland** (South Sydney AFA)

- Master Angler - Gamefishing
- Master Angler - Trophy Length

**Rob Sinclair** (Sea Bees Fishing Club)

- Master Angler - Trophy Length
- Master Angler - Sportfishing

**Terry Tatton** (Wollongong Sportfishing Club)

- Master Angler - Fly Fishing

**Phil Turner** (St George Sportfishing Club)

- Master Angler - Trophy Length Species "60" Whaler Shark
- Master Angler - Trophy Length Species "70" Whaler Shark
- Master Angler - Trophy Length Species "80" Whaler Shark
- Master Angler - Trophy Length Species "90" Whaler Shark
- Master Angler - Trophy Length Species "10" Australian Salmon

I would also like to encourage all clubs and members to have a look at the breadth of Masters Awards that are available as we would like to see many more awards being granted this year. Also, please keep an eye on your individual captures as many of you are possibly only in need of that last elusive capture or two to be eligible to lodge your claim.

Regards,

Rob Sinclair  
ANSA NSW Masters Keeper

# **Angel Ring Coordinator's Report**

The Project continues to save lives and provides a timely reminder that some of our rock fishing safety spots can be dangerous which was always our objective but to top it all off we have had some great wins this year during often tense and difficult negotiations with the legal teams of both Crown Lands and National Parks.

In late 2017 after almost 2 years of stalled and often difficult discussions it was agreed to remove the clause that ANSA NSW indemnify Crown Lands against any loss or damage caused by the Angel Rings as listed below by the Crown Lands legal team;

*“ANSA will indemnify the Minister and the State of NSW against any loss or damage caused to **ANSA or its members** by the operation or use of the Angel Rings, with the exception of any loss or damage to the extent it is caused or contributed to by the negligence of the Department”*

To the final version outlined below that has dropped any reference to indemnity.

I refer to consultation between your organisation and the Department of Industry – Crown Lands & Water regarding a suitable approval process for the installation of Angel Rings along the coast of NSW by your organisation.

I am pleased to advise that a simplified agreement has been approved that allows for installation of Angel Rings in the issuing of a standard letter that sets out the conditions of the installation and responsibilities of all parties.

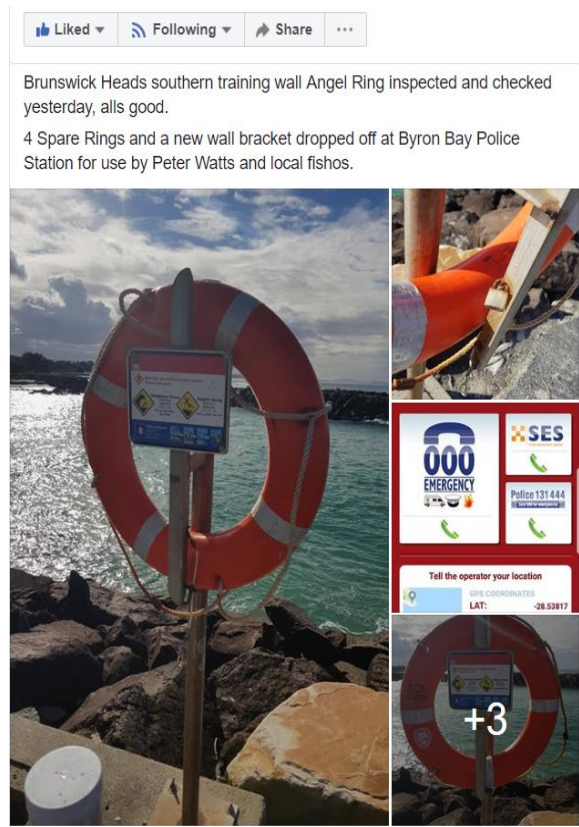

I understand that you are compiling a list of priority sites for installations and will be providing them to the Department in the near future.

A huge win for common sense and this allowed us to move forward on Crown Lands, but National Parks was even harder and late this year we scored a win through the hard work of Max Castle in cracking the door open a bit more National Parks and as Max reports,

“after some 5 years ANSA NSW has been trying to install new Angel Rings in National Parks - numerous approaches have been made through the head office - outcomes have been far less than eventful, and after trying an alternative approach I can advise that after a discussion with our Mayor I requested she raise the issue regarding Angel Rings with the NSW Minister for Fisheries - Guess what! - This discussion has been successful in getting approval for the installation of the Rings with Eurobodalla. That means that locations such as Durras can now have Angel Rings installed! - Any life saved pleases me very much! Fisher or not”

I cannot stress how tough it has been not to install any new rings, but things are changing and once you brush past the entire rubbish legal teams throw at you and if you persist, common sense will prevail.

A few snippets from our Face Book Page follow. Once again many thanks to the volunteers who help make this happen and here's hoping for an even safer 2018 / 2019.

*Stan Konstantaras*

Stan Konstantaras  
Angel ring Coordinator.

## **Special Projects – Fishing 4 Therapy**

This year saw one of the biggest challenges that F4T has encountered so far, the introduction & implementation of the NDIS. It has seen several very needed and wanted service groups be either closed or forced to amalgamate with similar bodies.

This has impacted on our attendees with both support and financial issues, but approx 90% have opted to continue with the programme and have their new carer's costs taken from their package, sometimes against the direction of their package overseer.

As some of these Associations now close, some families are opting for self management of their packages and our sessions are starting to move in some cases to more one-on-one sessions, usually this will be for the younger attendees or more specialist disabilities.

We continue with the Autism and Acquired Brain Injury groups but have also been working with Tourette syndrome (youth) & those who are both deaf & blind.

We have tried integrating some with Tourettes into the able body groups to offer a level of social confidence building, with mixed results. However, the issues that arose were not with the disabled but the able body community and their acceptance of those attending - no judgements, as it was just an interesting observation.

We were also approached by ANSA QLD who wants to look at the feasibility of starting a similar group in far North Qld. A team spent their own funds to fly to Sydney and joined in a session then spent the rest of the day on a steep learning curve on the whys & how's of what we do. This will most likely form into a trial session so they can register interest, with the first session looking to be in Rockhampton.

I would like to give a special mention & thanks to the Sea Bee's Fishing Club for their ongoing support of the programme. Their donations made possible the building of 2 specialist rods and rigs for one-armed-fishing, primarily making it possible for two of our stroke attendee's to fish with everyone else, even though they only can use one side of their body. These outfits are now used for fishing in Sydney Harbour from some of the wharfs, giving a fantastic back drop to a wonderful fishing session.

One of the hardest hurdles we have to overcome is that of regular volunteers helping with the groups and forming long term relationships. I once again would really like to thank Bill Harvey from the ST George Club for his patience and dedication. Bill has been with the programme almost from its conception and rarely misses a session. He is a valuable and much loved member of the family, forming many friendships over the years.

Tony Steiner  
Special Projects Officer  
Fishing 4 Therapy  
ANSA NSW.

# **Special Projects – NEWTAG Report**

## **Mulloway -**

Tagging has resumed with a fresh allocation of tags to the program. Tags were passed onto Julian Hughes DPI to be distributed accordingly to both new and existing anglers. The Mulloway tagging now runs alongside Julian's Research Angler Program allowing a more thorough and efficient allocation and collection of tags. Stan and I continue to work with existing taggers and assist Julian where ever possible. In recent months a few of our outstanding north coast taggers have placed tags in some very large Mulloway we hope to see recaptured in the very near future!

Summer 2017-18 was another ripper for participants in the NSW RAP-ANSA mulloway tagging project. Almost 50 prime summer mulloway were tagged ranging in size from a 55 cm Coffs Harbour pup right up to a 140 cm dinosaur (also from Coffs Harbour)! One of the project's stalwart anglers, Paul Blade, was the number one tagger for summer with 13 fish, including the aforementioned 55 and 140 cm fish from his local stomping grounds along the Coffs Coast. There was no let up from Sydney's metro mulloway hunters either with Ivan Maric, Jamie Gauci and Glenn Mitchell tagging 15 fish between them from some of NSW's most heavily fished estuary systems. Kieran Hill also had a hot summer in Newcastle tagging six fish of between 64 and 85 cm.

A feature of summer's mulloway tagging effort was size - with six metre-plus fish tagged. Included in these was Paul Blade's 140 cm Coffs fish, a barely-smaller 139 cm from the Georges River, a 123 cm fish from Newcastle Harbour and two Hawkesbury fish, one tagged by Ivan Maric going 122 cm and the other 120 cm!

<b>Top Five" taggers for summer 2017-18 (as of 28 February):</b> Tagger	No. fish tagged	Region
Paul Blade	13	Coffs Harbour
Ivan Maric	9	Sydney
Kieran Hill	6	Newcastle
Jamie Gauci	3	Sydney
Glenn Mitchell	3	Sydney

There were quite a few 'movers' revealed by summer's tagged mulloway recaptures, which is one of the reasons this component of the NSW RAP is so valuable to research! A 59 cm fish tagged well up the Hastings River in Port Macquarie by Castaway Estuary Charters' Mark Saxon was recaptured at Shelly Headland by John Meehan, a straight line distance of some 3 nautical miles having grown to 80 cm in 19 months at liberty. Another river-to-sea movement was undertaken by a 93 cm fish tagged by Lachlan Monroe in the Nambucca River, which was recaptured at Nambucca Heads by James Sakker growing by 2 cm in 176 days. Another Nambucca River fish tagged, this time by Clay Hilbert way up river at Macksville when just 60 cm in length, was recaptured by Andrew Trappel from The Rocks Fishing Charters at Grassy Head a staggering 1178 days (3 years 3 months) later when 86 cm long! This fish had travelled the 12 km downstream from Macksville to the mouth of the Nambucca River before making the 17 km swim south to Grassy Head!

<b>"Top Five" largest fish tagged for summer 2017-18 (as of 28 February):</b> Tagger	Total length (cm)	System
Paul Blade	140	Coffs Harbour
<i>Anon</i>	139	Georges River
Nathan Debono	123	Newcastle Harbour
Ivan Maric	122	Hawkesbury River
<i>Anon</i>	120	Hawkesbury

Recaptured at North West Solitary Island by Lachlan Wray was a 95 cm fish which had previously been tagged by Paul Blade some 18 nautical miles south at Coffs Harbour having grown by an astonishing 39 cm in its 25 months at liberty! Botany Bay and the rivers which run into it always feature on these pages, and this summer was no different with an 88 cm fish tagged by Jamie Gauci in the Georges River recaptured in Botany Bay by Abdullah Atlihan 8 months after it was tagged when 92 cm in length. Ben Harris' 66 cm Georges River fish had swum right through Botany Bay and up the Cooks River, a trip of over 10 km, where it was recaptured by Kyle Flood some 566 days later at 71 cm. A pair of fish which hadn't gone far, but had grown plenty were a 66 cm fish which had grown 24 cm in 540 days in Brisbane Water and a 73 cm fish which had grown 18 cm in 443 days in Newcastle Harbour. Our final recapture for summer 2017-18 was an 83 cm fish tagged in Lake Macquarie by Steve Gresham which was recaptured at 90 cm by David Birt in Newcastle Harbour – the second tagged mulloway to have been recorded undertaking this estuary to estuary journey on the Hunter Coast!

<b>"Top Five" largest fish tagged overall (as of 28 February):</b> Tagger	Total length (cm)	System	Season
"Tagger 86"	155.5	Hawkesbury River	Autumn 2016
Josh Anderson	152.5	Yamba	Spring 2016
"Tagger 86"	152	Hawkesbury River	Spring 2015
"Tagger 86"	148	Hawkesbury River	Summer 2016-17
"Tagger 86"	146	Hawkesbury River	Summer 2016-17

<b>Tagged mullocky recaptures for summer 2017-18 (as of 28 February):</b> Tagging angler	Total length (cm)	Tagging location	Recapture angler	Total length (cm)	Recapture location	Days at liberty
Anon	76	Hawkesbury River	Emiel Temmerman	80	Hawkesbury River	214

Steve Gresham	83	Lake Macquarie	David Birt	90	Newcastle Harbour	136

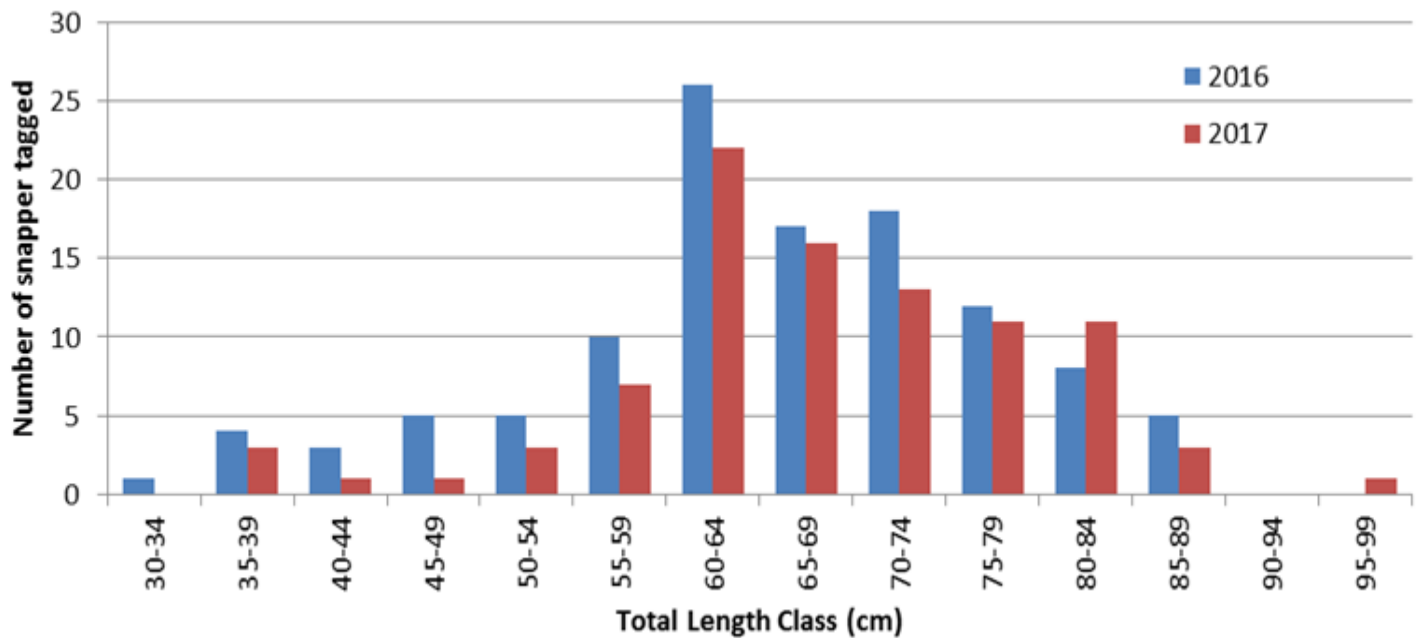

## Snapper –

Continuing on from last year we once again were invited to the Dave Irvine Memorial Snapper Classic. A great opportunity to tag some reasonably large fish over the course of 2 days.

This year's event was a success with 12 teams participating allowing us to get quite a few tags into snapper between 60 and 90cm.

Snapper (*Chrysophrys auratus*) are one of NSW's most popular recreational target species and the Dave Irvine Memorial Snapper Classic is the most popular snapper-only tournament in the state each year. As a catch-and-release tournament featuring many of NSW's top snapper anglers, the DIMSC represents an unprecedented opportunity to tag and release a large number of fish in a relatively small area over a small time period each year. With the support of the organisers, this citizen science initiative carried by the NSW Research Angler Program (DPI Fisheries Research) and ANSA NSW has tagged fish at the DIMSC for the past two events (2016 & 2017).

The involvement of 55 anglers participating in the 2016 and 2017 editions of the DIMSC has resulted in 206 fish tagged overall (114 in 2016 and 92 last year). As can be seen in the above figure, the sizes of fish tagged have been very similar over the two years. A minimum suggested size for tagging of 60 cm has been recommended and as a result, the average size of fish tagged has been a quality 65 cm! This minimum size has been recommended as research has shown that larger snapper are more likely to move when compared to more residential nature of smaller size classes. Some very impressive fish have been tagged with almost 30 fish of more than 80 cm in length released with a tag in the past 2 years. With the advent of many extremely effective artificial lures used when targeting snapper, the incidences of mouth-hooking are high and result in fish being released in the best possible condition.

Surprisingly, just three tagged fish have been subsequently recaptured, all from the 2016 comp, none of which moved significant distances despite being at liberty for up to 473 days.

Tag-recapture data is primarily used to infer migration patterns and the growth of fish in the wild. By accurately recording the location where a fish is tagged and its length, researchers have a prior history of an individual fish should that tagged fish be subsequently recaptured and reported. As well as providing movement and growth information, tag-recapture data can also be beneficial in providing an improved understanding of stock structure, the connectivity of fish populations and identifying spawning aggregations. This information in turn maybe used to inform management strategies to ensure the future sustainability of the stock.

## Broadbill -

After spending a couple of seasons with some of the best daytime Sword fisherman on the east coast we have explored the option of satellite tagging these creatures from the deep. The proposal was put forward to obtain funding for 10 satellite tags to be deployed on suitable swordfish our captains encounter. I believe this will run on a format similar to the great marlin race. At this point I believe we are waiting for the tick of approval from our minister, and the tags can be allocated in preparation for next year's swordfish season.

Chris Anagnostou  
NEWTAG  
ANSA NSW Tagging Officer

# **Roy Winter Memorial Trophy**

## **Excellence in Rock Fishing**

The inception of the Roy Winter Memorial Trophy occurred during the mid 1970's when Mr and Mrs Winter presented the Perpetual Trophy to ANSA in memory of their son Roy who passed away in his early 20's before he could achieve his fishing goals. The trophy is not awarded as a matter of course each year but rather only when, if in the Committee's opinion, a significant capture has been made from the rocks during the competition year. Entries are not called for with the winners name usually obtained from examining all rock captures made from the 12 Month Competition.

YEAR	ANGLER	DESCRIPTION
1976	John Ashley	
1977	David Mayne
