President's Report

"What a year it has been" – I seem to use this opening statement every year and this year is no different."

For the past few years I have used the opening statement above to start my presidential reports. I have got to say that 2019 / 2020 will finally be the year that my Presidential catchphrase will get retired.

Having used this slogan in my previous few opening statements, this year has been way different, once in lifetime stuff I hope.

I am looking for a new catchphrase for my next report; *"I hope we never see another year like 2020", "with 2020 finally behind us", "good riddance Covid 19"* are on my radar but in the meantime I am really struggling to put a positive spin on the past year - but it has been positive in so many ways that we should not forget what we have achieved.

It has been a remarkable year that brought us together from the fish kills to the bushfire crisis that engulfed NSW during December, January and February and then with the current Covid pandemic. I have sat back and watched the ANSA NSW clubs respond to the situations with great pride. From banding together during the bushfires that saw clubs like the Eurobodalla Fishing Alliance and especially Narooma Sport and Gamefishing Club cement their places in their communities with their bushfire responses and leadership. From us here at ANSA NSW, a huge thank you to Les Waldock and the Narooma club who opened their club up as an emergency shelter, well done Les and the membership. Many other clubs chipped in to help out so a collective thanks to all.

The other issue has been the struggle with Covid, both at a club and committee level. I know last year I wrote about the fact that our focus needs to be making the job of running a club easier for the members to participate and drive greater connection between the NSW Clubs. Today the recreational fishing community has changed significantly due to the digital age and modern practices, but more importantly the impacts of Covid 19.

If anything Covid 19 has seen all clubs adapt to a very restricted club scene, the likes of which we have never seen before. I have watched the clubs embrace social media, become creative in the way they engage their membership and watched them struggle with keeping the ship on an even keel but they are managing and evolving every day so thank you to all the members and committees who make this happen.

In this day and age the mental health benefits that fishing provide are well documented and the literature available is wide ranging but when it is put into perspective in today's Covid 19 situation - fishing is by nature a reflective and meditative activity that forces you to slow down and enjoy your surroundings. People fish for many reasons. Some fish just for food and some for sport, while others just want an excuse to be outside or get together with friends. No matter what gets them out there, any fisherman can attest to the supreme sense of relaxation and calmness that spending a morning or evening doing their favourite activity provides. This very quality has made fishing a popular therapeutic exercise used by counsellors and therapists who work with veterans, people with chronic illnesses, and others who have experienced trauma in their lives. I didn't write that but I realise how important fishing is and how important the clubs are in looking after their members and that we have been doing it for a long time before Covid 19 hit our shores.

The politics, letter writing and representation roles that come with the job are challenging roles to deal with, but the welcomed distractions have been working on the Fishing 4 Therapy Project and Angel Ring Project which provide a welcome relief for all of us. A massive thank you to all who

work behind the scenes and keep the ball rolling for these projects and the next chapter for these projects, whatever they may be.

I did promise to remain upbeat and every single ANSA NSW member, Club Committee member and State Executive member should be extremely honoured and gratified that a small 0.001% can be pivotal in swaying how the NSW and Federal Governments decide on all of the stakeholder's access to the land, water and resource. This is why all of us should put our hands up to lead, build our clubs up and try and leave the fishery in a better way than we found it.

Stay safe and stay in touch.

A handwritten signature in black ink, appearing to read 'S. Konstantaras'.

Stan Konstantaras
President
ANSA NSW

Vice President's Report

2019/20 has been a pretty tough and challenging year for all of us. Initially with prolonged drought putting our inland river systems under duress with major fish kills across the state and then followed up by bush fires raging across the nation causing unbelievable damage and havoc for regional NSW with loss of life, extensive injury, damage to property and horrendous impacts upon our wildlife and fishery habitat. Just when you expect things might be turning for the better we then get hit with the Covid 19 pandemic and its harsh but necessary restrictions on personal freedoms. You have to wonder what's next.

As a consequence of these natural disasters ANSA has had to be adaptive to the change of circumstances and their impact upon members and recreational fishing activities. Because of travel restrictions, social distancing and the embargo on fishing within Victoria and Qld associated with the original pandemic lockdowns, ANSA at a National level had little choice but to suspend all National Records and Masters Awards effective from 1 April and to send out a message encouraging the cessation of all competitive events and club gatherings and for members to stay at home to protect their health and that of their families. These suspensions were lifted on 31 May but we are keeping our options open should the second wave of the pandemic worsen.

NSW Branch immediately adopted these measures across NSW and regrettably major ANSA sanctioned events such as the Sydney Sportfishing Tournament, Glenbawn, Lake Lyell, Burrinjuck and Eurobodella conventions had to be cancelled causing major challenges for the host clubs that had invested time and money preparing for these events. Hopefully there will be an opportunity for these events to be kicked off again in the new year if restrictions are softened. Our member club networks are also enduring the impacts of the lockdowns with club member meetings, in house fishing events and social gatherings being put on hold.

ANSA National being mindful of the financial hardship being experienced by clubs and members also very generously reduced its 2020/21 member affiliation fees by 50% and wiped all fees for students and juniors. These fee reductions were fully passed onto NSW members by the ANSA NSW Committee.

Our NSW public liability and defined accident insurance providers were also approached to see if a reduction or rebate of premium could be considered having regard to the much reduced level of ANSA club and membership competitive activity. While sympathetic to our situation our insurers could not accommodate such concessions.

While all this seems like a tale a doom and gloom one positive to emerge has been the unexpected but welcome increase in recreational fishing activity across the nation including NSW. With many now working from home there are new opportunities to go fishing mid week and many are taking advantage of this new lifestyle opportunity to enjoy a day out in the fresh air doing what they enjoy with their family and friends while still complying with social distance and gathering restrictions. Ironically some of our more popular boat ramps have experienced a threefold increase in usage mid week and are packed out on weekends. The tackle shops and camping retailers are also doing reasonably well which is great news for that business sector and the tackle wholesalers are now seeing a resumption of stock supply from international markets. Regional travel and accommodation also seems to be on the road to recovery after a disastrous year and a welcome boost for regional economies.

ANSA National is looking at ways and means to capitalise on this surge in recreational fishing activity and we are in conjunction with the Australian Recreational Fishing Foundation (ARFF) developing an extended version of the Tackle Box App which will facilitate the capture of fishing activity, capture details, fish identification, location data together with photograph and video imaging. This technology will be free and will capture the sort of data that is essential for the

facilitation of virtual fishing competitions and events and or traditional club competitions and events. Adam Martin (NSW Branch Competition Recorder) has been extensively engaged with the Tackle Box project which is being managed by ARFF with funding provided by Marine Parks Australia. I am also directly involved via my role as a Director of ARFF. It is the intention of ANSA NSW to use this technology to run a number of state wide events which will fit around Covid 19 restrictions and potentially facilitate the development a new national competition model which will complement the existing competition agenda both during and post the pandemic. More details on the availability of the Tackle Box App and the new suite of virtual events and competitions will be released shortly.

Also on a positive note ANSA in conjunction with other peak body members of ARFF has successfully reached an agreement with the Federal Government and the commercial sector which will see no changes to the Commonwealth regulations governing recreational fishing for Southern Bluefin Tuna. There have been no changes to SBT State bag and size limits or the allocation of the recreational fishing share of the SBT global catch limit between states or the imposition of a mandatory capture reporting requirement. This is a victory for common sense after more than a decade of frustrating negotiation between stakeholders and the Australian government. All we need now is a good run of SBT off the NSW coast.

ANSA via its membership role on ARFF is also a sitting member of the National Recreational Fishing Council which was set up by the Coalition government to replace the former Recreational Fishing Round Table. So far we have had one virtual meeting with Senator Jonno Duniam, the current Assistant minister for Forestry and Fisheries, and he seems to be genuinely interested in working collaboratively with the recreational sector on Commonwealth fishing related issues.

The Australian government has also generously come good with an \$8 million Fish Habitat Restoration funding package which will be delivered by Landcare Regional Land Partnership. This funding package was an electoral commitment given to ARFF prior to the last Federal election and was initially to be managed by ARFF and its member bodies. While this did not eventuate there will undoubtedly be many deserving rehabilitation projects that will now go ahead much to the benefit of our fish habitat. Details of projects to be funded are yet to be announced but Ozfish Unlimited which engages in numerous national fish habitat rehabilitation projects and has a very strong presence in NSW, will hopefully be a beneficiary of some of the \$8 million and spent on NSW regional projects. ANSA is a foundation member of Ozfish and I have served as a director of the company since its establishment.

I am also pleased to report that I was appointed as a recreational fisher representative on the Temperate East Marine Park advisory Committee (TEMPAC). The Temperate East network of marine parks covers a number of offshore locations adjacent to Bermagui on the NSW south coast up to Bundaberg in Northern Qld and includes reefs and canyons adjacent to both Lord Howe and Norfolk Islands and deepwater canyons and mountain peaks extending well into Commonwealth waters almost as far out as our National borders. The interests of recreational fishing in these Commonwealth marine parks has been well received by all members of the TEMPAC committee who represent a diverse range of stakeholders including conservation groups.

The NSW Branch Committee will continue to engage with NSW Fisheries and other government agencies in terms of preserving recreational fisher access to our waterways - fresh and salt and - and to ensure that any new proposals for state marine parks or state significant developments will involve constructive and genuine consultation with the recreational fishing sector - current issues on the boil include a proposed cruise ship terminal at Yarra Bay and a new Ferry Service and wharves at La Perouse and Kurnell - both of which are located in Botany Bay a declared recreational fishing haven. There is also ongoing lobbying for a state government buy out of the Southern Fish Trawl operation and for a review of the NSW Impounding Amended (Unattended Boar Trailers) Act which prohibits boat owners from legally parking their boats outside their homes for more than 28 days and risk of fine and impoundment for any breach.

Looking forward, hopefully 1920/21 will be a less formidable year and we can all get back to a level of normalcy and enjoy the company of others and put the risk of health back into a more balanced perspective - and of course enjoy more fishing and a resumption of ANSA activities.

Keep safe and keep fishing

John Burgess
Executive Officer/ Director - ANSA National Ltd
Vice President - ANSA NSW Branch

Secretary's Report

Another eventful year has past and the committees' commitment has once again been put to the test. Covid 19 has seen restrictions imposed on our member clubs and has postponed a lot of our conventions, but we are all still actively pushing through the barriers and in one way or another, surviving. Our challenges are not over, but we're putting in a good effort. Stay strong. We'll all pull through.

Once again, ANSA was called to stand up, defend and curtail various issues to ensure that our members' rights and those of every recreational angler in NSW and throughout the country were upheld and protected. Our membership can be assured that ANSA has been well represented at both a State and Federal level.

The committee has worked hard to ensure that membership renewals were processed. This was a big challenge for our membership officer Pat Ashbury and treasurer Tony Steiner. Big thanks to both of you. As most would be aware, Pat Ashbury has stood down from membership, as she has moved to Queensland to be closer to her family. I take this opportunity to thank Pat for her commitment and endless hours of work as our membership officer and wish her all the best in retirement.

The committee ensured that all the latest updates for the ANSA NSW 12 Month Competition, Records and Masters were distributed as regularly as possible and updated on our website. This is a massive job. Well done to our recorders for records, masters and competitions, Bruce Tozer, Rob Sinclair and Adam Martin. Thanks for your commitment throughout all the year.

Our project co-ordinators, Stan Konstantaras, Tony Steiner and Chris Anagnostou have performed exceptionally well with our Angelring, Fishing 4 Therapy and Newtag projects in the last year. Recognition at all levels of Government, both at a State and Federal level has been massive. More lives saved through the Angelring Project, successful and useful data gathered through our Mulloway & Snapper Tagging Project. The Fishing 4 Therapy Project has been halted for the time being as funds have been exhausted.

To the remaining committee and other volunteers, THANK YOU! Your commitment is very much appreciated and I look forward to working with you all once again.

Promotional Material

As you must all be aware, ANSA promotes itself through what it does and stands for, but if you are looking to promote ANSA through your clubs or at conventions or your local community do not forget that ANSA has promotional brochures available and there is always ANSA ware that can be purchased. If you need any more information on promotional gear, please get in contact with me and I will guide you through the process.

Committee Meetings

The Committee meets quarterly during the fishing calendar year with its most recent meeting being August 2020. Don't forget clubs are more than welcome to attend committee meetings as they see fit. It probably would not be a bad idea to come and see how things are run at a State level. It can be very rewarding and many hands make light work. We are always looking for new enthusiastic club members to join the committee and help run ANSA NSW.

The Email Database

The ANSA NSW email database currently hosts all ANSA NSW affiliated Clubs. Most of the Clubs on the database have minimum one contact. In total, the database hosts more than 120 points of contact, which includes Sportfishing NSW members. As in previous years, the electronic mailing system has really helped ANSA NSW operate more efficiently, economically and has aided their capability for distributing up to date information quickly. If you are not receiving electronic information from ANSA NSW please let me know and I will most definitely add you as a contact to the database. Do not forget, ANSA NSW has an email protocol and your addresses will be used for distribution of ANSA NSW information only.

Club Newsletters

It was very encouraging to see that ANSA NSW Clubs are sending out more newsletters than ever before. It was especially encouraging that information distributed by ANSA NSW featured in the newsletters. Well done to all those club volunteers that put their newsletter together. Keep up the great work!

The Website

The ANSA NSW website is the central information hub for all ANSA NSW members. It is a vital tool for distributing information, so make sure you visit at least once a month for any new updates. Not all information is distributed direct via email.

The ANSA NSW website has been maintained regularly through the past 2019/2020 year and is currently up to date. Anything you would need to know about how ANSA NSW operates, how to start a club, how to join ANSA, competition updates, and record updates etc is on our website.

Facebook

ANSA NSW has a Facebook page. Currently the Facebook page has more than 840 likes. A considerable number, but we would really like to see more people like the page. So if you haven't liked the page yet, do it right NOW!! Log on and like ANSA NSW on Facebook.

<https://www.facebook.com/ANSANSW>

Instagram

Our instagram page has really taken off. With consistent posts more and more people are following ANSA NSW on instagram. Credit must go to Adam Martin who finally got the instagram page moving and linked it with our Facebook page. Follow us on instagram.

ANSA_NSW

The ANSA NSW Committee is always here to service our membership efficiently and effectively, so please do not hesitate in approaching the committee about anything.

Enjoy your year and stay safe,

Joe Garufi
Secretary
ANSA NSW Branch

Treasurer's Report

Our financial year finished with a combined balance, being the combined Main & Project accounts, of \$ 20,118.73.

We had a drop in income, against budget, for Club & Member affiliation fee's however the Direct Membership was slightly up.

We were able to achieve a saving in Insurances and Post / Stationery with almost everything changing to electronic processes.

There was an increase in meeting costs due to the Telstra Conference calls we were using but this will now stop as the Committee has opened an account with Zoom, dramatically reducing those costs.

All existing Grants & Funding have finished with all being finalised, funds received and dispersed.

This year ANSA NSW received a single donation of \$4000.00 to help cover the expected shortfall in revenue from the Corona Virus and this has kept us financially sound for the 2019-2020 year.

Budgets for 2020 – 2021 have been hard to work out, due to the ongoing issues surrounding the Virus and the impact it will have on the Local Club scene.

We also were still experiencing issues with Clubs sending payments but no paperwork to accompany it. It would be preferable to receive paperwork details with or prior to payment as otherwise we do not know how to allocate the funds being received.

As Treasurer I would like to thank the other Committee members for their ongoing support & help through the year.

Tony Steiner
Treasurer
ANSA NSW

Recorder's Report - Competitions

12 Month Competition

Bushfires, pandemics, mass job shortages, social distance restrictions and significant impacts on all of our personal and professional lives has seen the 2019/2020 competition year suffer in more ways the one, but there is light at the end of the tunnel.

Analysing the 2019/2020 year with last year's report, the data suggests the astonishing events on NSW have indeed impacted the 12-month competition and how we interact with recreational fishing in general. Of the possible 75 positions to be awarded there was 12 spots unfulfilled, most of which were fulfilled prior to social distancing measures took place. Ten clubs participated in the competition with Terry Tatton of the Wollongong Sportfishing Club making a stellar effort once again. A total of 98 submissions were accepted to the competition with the line class categories being the most contested section of the competition, a first in a decade.

At the end of the competition year, the competition was below its own benchmark from the past decade. Trending analysis prior to Covid-19 suggests participation levels were in decline without help from the pandemic impacting participation efforts. Interestingly, over 90% of those who participated the last two years returned again for the 2019/2020 year. Very little new uptake. Make no mistake, we are at a crossroads with two possible outcomes. Continue doing more of the same thing and follow a pathway to collapse or take advantage of very real opportunities that will soon present themselves to ANSA National, ANSA NSW along with its clubs and members.

There is no room to assign blame anymore or obstruct moves to innovate to meet the future needs of the membership. Competitions styles that was once successful methods that elevated ANSA to heights of prestige among the national recreational fishing community during its golden years no longer serves the needs of most of its membership nor attracts new membership. Doing more or less of the same thing will only produce the same results of years past which is leading to stagnation and collapse whereas if we begin to do something different driven by innovation, value adding to existing formats we will undoubtedly see change that is sorely needed.

For this to happen we need to create a new competition system which makes it much easier for everyone to submit fish for the individual, family, and club levels. All these levels of participation are captured and funnelled to one point, at a state level. Also, what needs to happen is everyone to play their part if they want their club and ANSA NSW to succeed for another 50 years. Each member needs to put in a little effort in their own way, every club committee must find the energy to invigorate their club and participation and the ANSA NSW volunteers will play their part helping connect the dots.

Working for Australia's national recreational fishing peak body the Australian Recreational Fishing Foundation (ARFF) puts me in a unique perspective. I speak with many different clubs throughout Australia, many of which operate differently to ANSA clubs, but all face the same challenges of becoming irrelevant. ARFF currently has the Tackle Box pilot project underway which is a mobile app platform with fishing club competitions catered for. Soon there will be an opportunity for ANSA to tap into this new technology and revolutionize how it delivers its 12-month competition to its members at the very least. It is my hope we can bring this innovative mobile app to ANSA NSW soon, but in the meantime please go fishing for the reasons you hold dear and don't forget that the 12-month competition exists and perhaps send in a submission. Tight lines.

Fishing wise not such a happy year since the infamous Corona 19 struck.

Although most of the ANSA conventions were either cancelled or modified there were still plenty of fishing events around. I guess the fishing fraternity was fortunate though and eventually recognised by the authorities for what is, passive, healthy, safe, as well as a food gathering pursuit.

Getting back on the water was another matter, restricted travel, dams and impoundments off limits, no camping. It was all NOT happening for quite a period.

BUT we ARE back on the water. We can travel with some restrictions on camping but not so much as to stop us getting out there again.....Heaps of specials in the tackle shops.

Come on guy's and gal's we don't know lucky we are, miles of ocean shoreline, great river systems dams and impoundments, let's get back on the water this summer and go fishing.

Masters Keeper's

The ANSA Masters system was designed to develop fishing skills, initially with a bias towards fishing with light lines, however over time it has evolved in order to provide the angler with additional challenges in categories such as; Tagging, Freshwater Impoundment, "Length Only", and "Species" Master Awards to name just a few.

Whilst this year we only had four Masters Awards, it was good to see the continuation of a growing trend in applications beyond the line based categories.

These are all fantastic personal achievements and on behalf of the ANSA NSW Committee, congratulations to our members who obtained Masters Awards this year:

Travis Anderson (Sportfishing NSW)

- Master Angler - Sportfishing 20

Deborah Logan (St George Sport Fishing Club)

- Master Angler - Length Based Species 10 *Yellowfin Bream*
- Master Angler - Length Based Species 10 *Dusky Flathead*

Karl Rasmussen (St George Sport Fishing Club)

- Master Angler - Length Based Species 10 *Dusky Flathead*

I would also like to encourage all clubs and members to have a look at the breadth of Masters Awards that are available as we would like to see many more awards being granted this year. Also, please keep an eye on your individual captures as many of you are possibly only in need of that last elusive capture or two to be eligible to lodge your claim.

Regards,

R.Sinclair

Rob Sinclair
ANSA NSW Masters Keeper

Environmental Officer's Report

2019/20 will be remembered for a very long time as the year anthropogenic climate change boiled over in our state, devastating the natural environment across many areas, decimating wildlife and poisoning our waterways. It was also a year in which many decisions, across levels of government flew under the bushfire, then COVID-19 radar.

An example of what I couldn't help to think was cynical exploitation of the times is the recent approval of a developmental fishing permit for the harvesting of Gloomy and Maori octopus in waters as shallow as 10 metres. It was only by chance that ANSA NSW realised approval had been sought, as was the case for applications made for "developmental" commercial fishing of Crystal Crab, seaweed and temperate water reef fish. The failure of the NSW Government to pro-actively consult with recreational fishing bodies is telling.

[A 12-month, four fish box per week permit to allow cultural netting in pristine Wagonga Inlet and Mummaga Lake \(Narooma area\)](#) has been granted, bringing the support of some and ire of others. Early reports show some tremendous social benefits in the local indigenous community however; again important stakeholders such as the Narooma Sport and Gamefishing Club and ANSA NSW were not adequately consulted before the decision was made. Regardless of the opinion of our membership as to whether this should be allowed or not, we need to keep up the rage on consultation.

On a more positive note, ANSA NSW has had its offer for scoping and practical assistance in the restoration of oyster reefs in Botany Bay (and other sites as the research progress) accepted by NSW Department of Primary Industries. Early correspondence has been extremely positive and a good working relationship is developing between the parties. I note some good work on a hectare of oyster reef base in Port Stephens has already taken place in NSW.

Climate change, human interference and pollution have led to widespread depletion of shellfish reefs and associated ecosystems. Any work we can do to restore this vital marine habitat will not only improve the recreational fishery, it will also provide economic benefit to commercial fishing and related industries. Stan Konstantaras has worked tirelessly seeking support for the recovery of the Botany Bay shellfish reef environment. There will be many more opportunities in other areas as well.

On the topic of Marine Parks, some of you would have enjoyed the taste of freedom of old as five sanctuary zones in the Batemans Coast area were opened (with conditions) in December (me included). I can see more compromises being made in the future subject to ongoing considerate use of the areas.

To complete my report I would like the opportunity to express gratification for the privilege of two years within the inner leadership circle of ANSA NSW. The ANSA NSW committee are a selfless, committed and passionate bunch and it has been an absolute pleasure sharing dialogue and common goals with them. Due to increasing commitments associated with my growing family I have decided to take a step back in 2020/21 however will remain on call if there is ever a need for assistance.

Thank you all and signing out (for now)

D. Moran

David Moran

Environmental Officer, ANSA NSW

Angel Ring Coordinator's Report

2020 and Beyond:

With all funds expended over the years we will now need to consider how we manage or continue with this project into the future. ANSA NSW has coordinated this project as volunteers for over 20 years and we cannot see ANSA NSW applying for more funds to continue this arrangement. There is only so much we can do as volunteers and the amount of money and time it has cost many of us personally is not viable, albeit it has been a highly rewarding project and community service to have been a part of.

How do we handle the installed infrastructure under this project, do we have to remove it or what will happen to it is a question that we need to resolve into the near future.

ANSA NSW is still incurring costs associated with this project such as phone line rental to receive the 1800 free call number, requests for more rings and replacements and our ongoing commitment to community groups / fishing clubs who we cover the cost of maintaining rings in their areas. We do not have the funds to continue doing this and have already expended some of our own member's funds to keep the project going until a final report could be submitted. Although the Recreational Fishing Alliance of NSW has been helping out with the purchase of angel rings and postage, this is an informal arrangement that is not sustainable into the future.

Discussions have already occurred at ANSA NSW on the future of angel rings in NSW and some ideas have been considered and we will be engaging with NSW DPI on how best to progress these into the future.

Stay tuned for more updates as we have engaged the Police and Emergency Minister and DPI on a plan to develop a tender process to outsource the management of the Project beyond 2020. Who knows, an ANSA NSW member might put their hand up to run this as a paid contractor beyond 2020....

Don't Put Your Life On The Line

Stan Konstantaras
Angel Ring Coordinator.

Special Projects – Fishing 4 Therapy

Due to personal ongoing health issues, the programme has been stopped for the present time with no date for its restart.

All funds have been exhausted, including the finalisation of grants from DPI.

Our hosting partner relationship with Centennial Parklands has now ended with any future sessions being run at various locations around Sydney Harbour.

T.Steiner

Tony Steiner

Fishing 4 Therapy

ANSA NSW.

Special Projects – NEWTAG Report

Great Swordfish Race

This Great Swordfish Race Project aims to provide data on this exciting new fishery, including information on the timing and availability of swordfish in Eastern Australian waters, whether swords return to the same grounds seasonally and their suitability for catch and release.

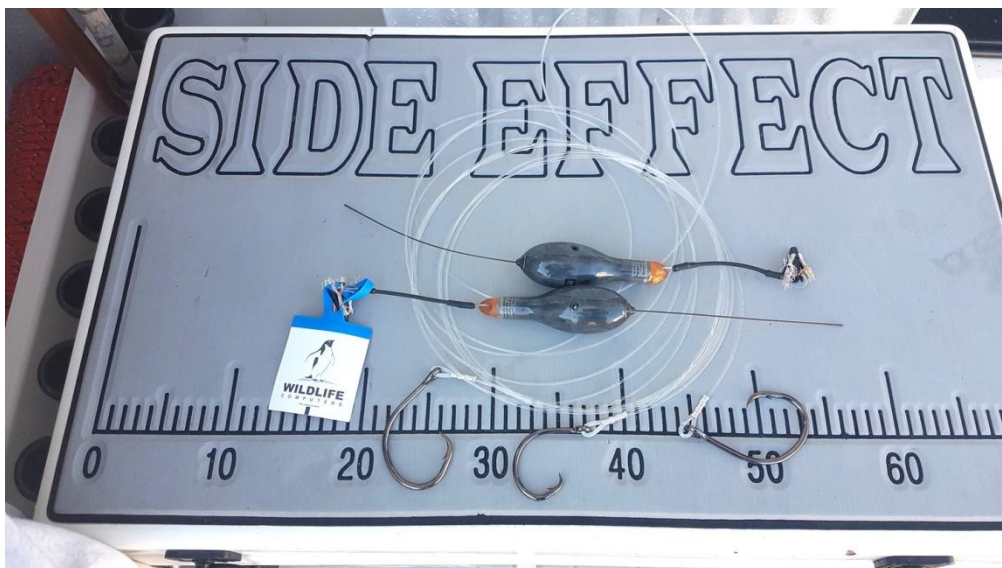

This research will help us to learn more about the recreational swordfish fishery in NSW to maximise its potential while ensuring the longevity of the fishery is maintained.

DPI is undertaking the project with the Australian National Sportfishing Association (NSW) and the NSW Game Fishing Association. A small team of NSW-based game and sportfishing swordfish experts will be provided with the sat tags to enable the collection of data.

Data from this project will be used as part of a larger swordfish project being undertaken by Dr Sean Tracey of the Institute for Marine and Antarctic Studies in Hobart, with similar objectives completed in Tasmania and currently underway in Victoria.

Pop-up satellite archival tags (PSATs) are used to track the movement of marine animals, particularly highly migratory species such as sharks, tuna and billfish. The tags are like mini computers that are externally attached to the fish and travel along with the fish whilst logging information on water depth, light levels and temperature, and gathering information on its location (geolocation). This allows us to gain a greater understanding of the behaviour of the fish, their migratory patterns and catch and release survival. The great benefit of satellite tags is that they do not have to be retrieved to collect the recorded information. After a predetermined time (twelve months) the tag decouples from the fish and 'pops-off', floating to the surface. The tag then transmits the data that it has stored whilst it has been underwater to orbiting satellites that pass overhead. This data is then relayed back to DPI.

The project will provide us with data on the exciting new recreational fishery including information on the timing and availability of swordfish in NSW, whether swordfish tend to return back to the same grounds seasonally and their suitability for catch and release. DPI is undertaking the project with the Australian National Sportfishing Association (NSW) and NSW Game Fishing Association.

Satellite tags and rigged circle hooks ready for action.

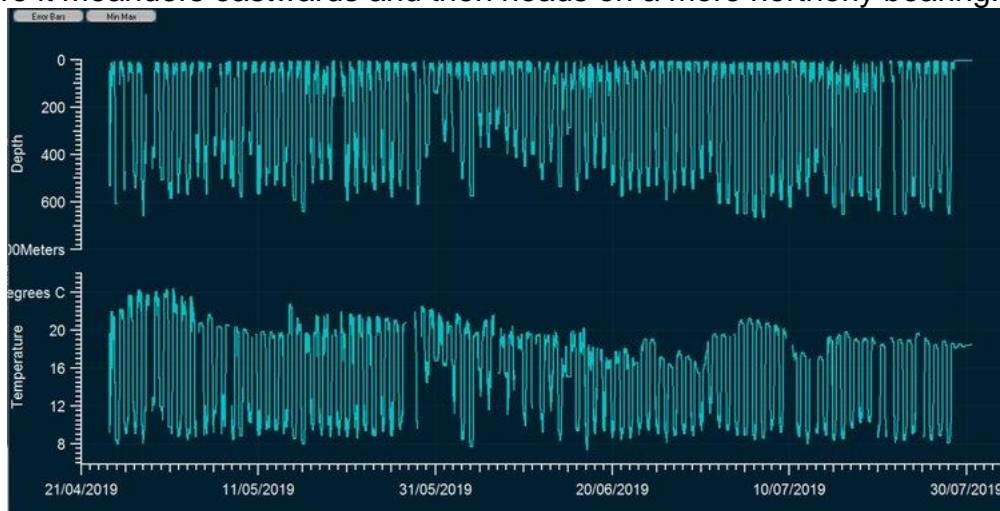

NEWS FLASH!! September 2019
Swordfish sat tag pops off west of Lord Howe Island!

Chris Cleaver and the swordfish that was tagged in April.

The first satellite tag, deployed on a swordfish off Sydney has popped off. The 30kg fish was tagged at the end of April by Chris Cleaver and Ryan Camlin and popped off east of the Dampier Ridge at the end of July. This is an early release for the tag; however this is a common occurrence for satellite tags and has still provided us with plenty of interesting info.

The tag showed that it still had the pin intact and from the data received it looks as if the tag just pulled out the fish early. The depth data in the image below shows that the swordy carried out the normal diurnal pattern of diving deep during the day (around 400- 600m+) and rising near to the surface at night. There appears to be some change to the behaviour around the end of May, where the daytime dives don't go as deep (150 – 300m+) before the normal dive pattern to 500m+ resumes. You can see the surface water temperatures were relatively high at around 24 degrees when the fish was first tagged off Sydney and they steadily drop off to around 19 degrees when the tag popped off west of Lord Howe Island. The fish headed south towards the south east corner of Australia before it meanders eastwards and then heads on a more northerly bearing.

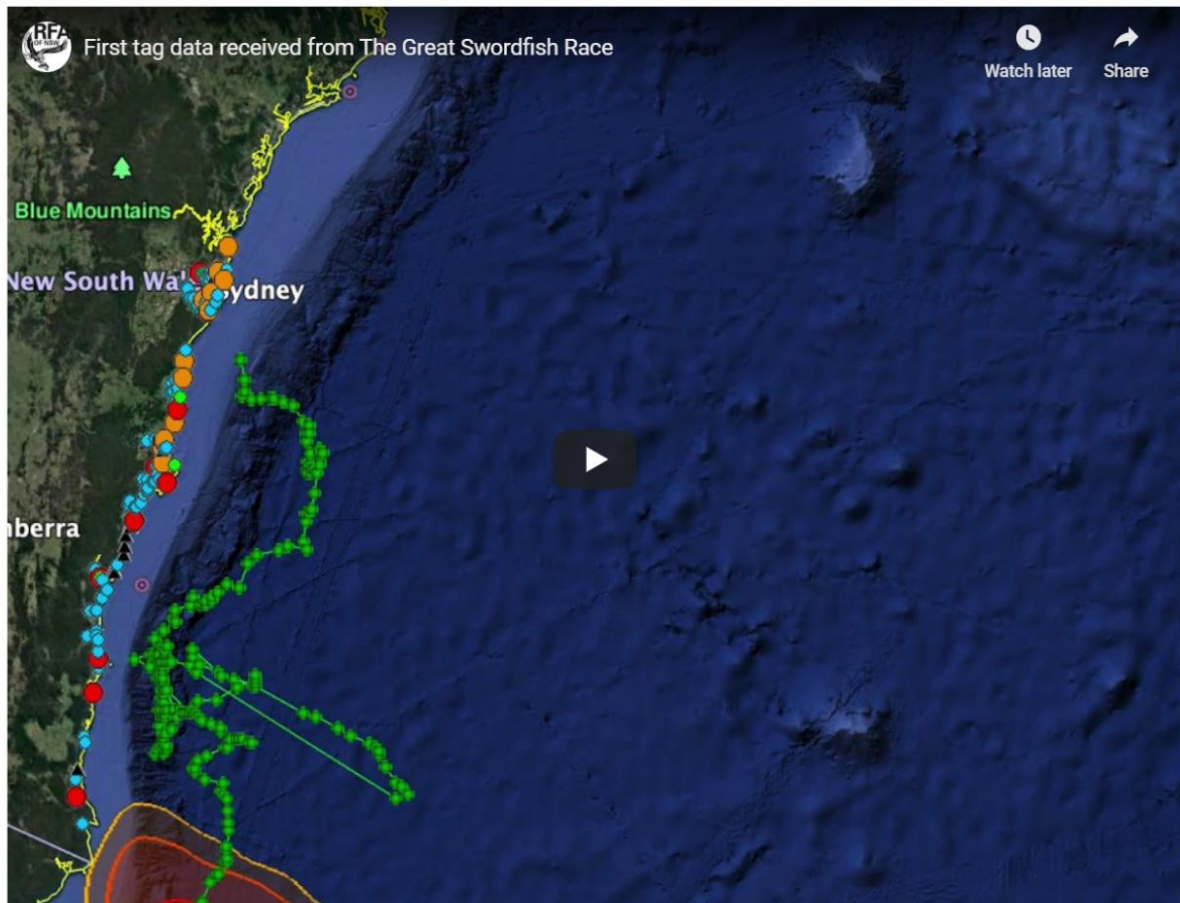

Dive depth and temperature data collected from the tag.

This track has been shared with Dr Sean Tracey of IMAS, who has previously carried out research on swordfish tagged off Tasmania and is currently studying fish tagged off Victoria. Dr Tracey shared a recent track of a Victorian fish tagged by Steve Taranto in May 2019 under a similar program being run out of Victoria by Dr Tracey who goes on to say Sean's provided the following

“It’s worth noting that swordfish are notoriously difficult to generate good tracks for due to the diving behaviour that sees them spend most of their life in the dark. The tracking model relies on trying to determine dawn and dusk times from the tag to estimate latitude and from there work out the noon time to estimate longitude. With swordfish spending much of their time in low light, this is particularly challenging. That is part of the reason that there are some jumps in the track and at times, the error balloons get bigger and may even throw up a couple of probable locations. That said “you can clearly see that the fish travelled south remaining fairly close to the shelf break before turning around somewhere adjacent to the southeast corner of Australia and heading up towards Lord Howe. This was a reasonably common northerly migration path taken by the fish that were tagged off Tasmania.”

Roy Winter Memorial Trophy

Excellence in Rock Fishing

The inception of the Roy Winter Memorial Trophy occurred during the mid 1970's when Mr and Mrs Winter presented the Perpetual Trophy to ANSA in memory of their son Roy who passed away in his early 20's before he could achieve his fishing goals. The trophy is not awarded as a matter of course each year but rather only when, if in the Committee's opinion, a significant capture has been made from the rocks during the competition year. Entries are not called for with the winners name usually obtained from examining all rock captures made from the 12 Month Competition.

YEAR	ANGLER	DESCRIPTION
1976	John Ashley
